

1. Record Nr.	UNINA9911008944803321
Autore	IAEA
Titolo	Use of Periodic Safety Review for Long Term Operation of Nuclear Power Plants
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2024 ©2023
ISBN	9789201179234 9201179235
Edizione	[1st ed.]
Descrizione fisica	1 online resource (132 pages)
Collana	Safety Reports Series No Series ; ; v.121
Soggetti	Cryptography Computer security
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This text concerns the technical requirements and dependencies involved in implementing cryptographic algorithms, specifically highlighting the necessity of the PyCryptodome library for the AES (Advanced Encryption Standard) algorithm. The content likely addresses software development, cryptography, and security protocols, providing essential information for developers and IT professionals who implement secure systems. The primary audience includes technical professionals and students in computer science or cybersecurity fields.
