Sommario/riassunto	This book is a publication of the Nederlandse Vereniging voor Procesrecht (Dutch Association for Procedural Law) focusing on the theme 'Extent and Quality of Briefness is Better?'. The publication covers a meeting held on July 1, 2022, in Amsterdam, where experts discussed the limitations on the length of legal documents in civil procedures imposed by Dutch courts. The discussions centered around the implications of these restrictions, their practical impacts, and the broader context of increasing document lengths in legal settings. The book aims to provide insights into the quality and efficiency of legal writing and is intended for legal professionals, scholars, and anyone interested in procedural law.
