

1. Record Nr.	UNINA9911008949003321
Autore	IAEA
Titolo	Hazards Associated with Human Induced External Events in Site Evaluation for Nuclear Installations
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2023 ©2023
ISBN	9789201439222 9789201441225
Edizione	[1st ed.]
Descrizione fisica	1 online resource (114 pages)
Soggetti	Nuclear facilities - Safety measures Nuclear power plants - Safety measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The book, 'Hazards Associated with Human Induced External Events in Site Evaluation for Nuclear Installations', published by the International Atomic Energy Agency (IAEA), focuses on safety standards for nuclear installations. It provides a comprehensive guide on evaluating hazards from human-induced external events, underlining the IAEA's commitment to safety and risk assessment in nuclear facilities. The guide is intended for professionals involved in nuclear safety, offering detailed methods and practical examples to support safety standards. The publication aims to enhance the application of nuclear science and technology while ensuring the protection of health and minimizing dangers to life and property.
