

1. Record Nr.	UNINA9911008979803321
Autore	IAEA
Titolo	Experience in the Management of Radioactive Waste after Nuclear Accidents
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2023 ©2022
ISBN	9789201312228 9789201311221
Edizione	[1st ed.]
Descrizione fisica	1 online resource (194 pages)
Collana	IAEA Nuclear Energy Series No Series ; ; v.NW-T-1.31
Soggetti	Nuclear accidents Radioactive waste disposal
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This publication by the International Atomic Energy Agency (IAEA) provides a comprehensive overview of the management of radioactive waste following nuclear accidents. It aims to offer a basis for preplanning by sharing good practices, technological advancements, and practical experiences. The book is structured to cover various aspects of nuclear energy, including reactors, the nuclear fuel cycle, and radioactive waste management. It is intended for professionals and stakeholders involved in nuclear energy and waste management, offering detailed technical guidance and methodologies to ensure safe and effective practices in the aftermath of nuclear incidents.
