

1. Record Nr.	UNINA9911009162303321
Autore	IAEA
Titolo	Advancing the State of the Practice in Uncertainty and Sensitivity Methodologies for Severe Accident Analysis in Water Cooled Reactors of CANDU Types : Final Report of a Coordinated Research Project
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2024 ©2024
ISBN	9789201221247 9789201220240
Edizione	[1st ed.]
Descrizione fisica	1 online resource (116 pages)
Collana	IAEA TECDOC Series No Series ; ; v.2058
Soggetti	Data encryption (Computer science) Cryptography
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The text refers to technical requirements related to cryptographic algorithms, specifically the Advanced Encryption Standard (AES). It suggests a focus on computer science, cryptography, and software dependencies, highlighting the need for specific libraries or modules for executing encryption tasks. This information is primarily relevant for software developers, IT professionals, and cybersecurity experts who work with encryption and data protection technologies.
