Santa Barbara to Los Angeles -- Chapter 8. Long Beach to San Diego -- Coda -- Acknowledgments -- Further Reading -- Index -- About the Authors -- Back Cover.
Sommario/riassunto	"Between the Tides in California is a highly accessible guidebook the rich and surprising ways that water and land interact to create seashore ecologies. This beautifully illustrated book is not your typical guidebook: leading marine scientists and scientific storytellers have collaborated to explain why different regions have developed distinctive characters and explore the dynamic forces that make the same beach a slightly different experience on each visit"--
