Autore	di Bella Enrico
Titolo	Statistics for Innovation I : SIS 2025, Short Papers, Plenary, Specialized, and Solicited Sessions / / edited by Enrico di Bella, Vincenzo Gioia, Corrado Lagazio, Susanna Zaccarin
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-96736-4
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (923 pages)
Collana	Italian Statistical Society Series on Advances in Statistics, , 3059-2143
Altri autori (Persone)	GioiaVincenzo LagazioCorrado ZaccarinSusanna
Disciplina	519.5
Soggetti	Statistics Quantitative research Social sciences - Statistical methods Demography Population Statistical Theory and Methods Applied Statistics Data Analysis and Big Data Statistics in Social Sciences, Humanities, Law, Education, Behavorial Sciences, Public Policy Statistics in Business, Management, Economics, Finance, Insurance Population and Demography
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface -- Plenary Sessions -- Specialized Sessions -- Solicited Sessions.
Sommario/riassunto	This book presents peer-reviewed short papers on methodological and applied statistical research presented at the Italian Statistical Society's international conference on "Statistics for Innovation", SIS 2025, held in Genoa, Italy, June 16-18, 2025. It is the first of four volumes, featuring invited contributions presented in the Plenary, Specialized and Solicited Sessions. Providing a comprehensive overview of innovations in modern

statistical methods and applications, the volumes address a large number of topics of current interest, contributing to a rapid dissemination of quantitative methods for data analysis across the various fields of scientific research and social life. The volumes underpin the role of statistics and data science in fostering innovation in numerous fields, including business, industry, finance, technology, environment, health and medicine, official statistics, public policy, welfare, social issues and sustainable development. One of the aims of the Italian Statistical Society (SIS) is to promote scientific activities for the development of statistical sciences. Together with the biennial international Scientific Meeting, the intermediate international statistical conferences on a particular topic of interest represent the Society's most important events which bring together national and international researchers and professionals to exchange ideas and discuss recent advances and developments in theoretical and applied statistics.
