Sommario/riassunto	This book constitutes peer-reviewed proceedings of the 5th International Conference on Power and Embedded Drive Control, ICPEDC 2024. This book discusses the latest technological advancements in embedded control of the power electronic devices, intelligent controllers for industrial applications, industrial electronics and automation robotics, green energy, renewable energy technology, IoT systems and networks, etc. The book is a unique collection of chapters from different areas with a common theme. It is beneficial to academic researchers and practitioners in the industry who work in this field.
