Navigating Data Sparsity: Strategies for Effective Recommendation Systems -- A Truncated Ground Modified Circular Shaped UWB Antenna for Wireless Networks -- Smart Transplants: Blockchain-Powered Organ Donation & Analytics -- Comparative study between Taylor Aquila Optimizer and Aquila Wild Geese optimizer in SDN Environment -- Deep Learning Techniques for Acoustic Detection of Red Palm Weevils.

Sommario/riassunto

This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management (ICDAM 2024), held at London Metropolitan University, London, UK, during June 2024. The book covers the topics in data analytics, data management, big data, computational intelligence, and communication networks. The book presents innovative work by leading academics, researchers, and experts from industry which is useful for young researchers and students. The book is divided into six volumes.
