Bladder Trauma -- Ch 70. Current Management Of Urinary Tract Injuries -- Ch 71. Genital Trauma -- Part 18: Urethral stricture disease -- Ch 72. Urethral Stricture Disease -- Part 19: Urotechnology -- Ch 73. Update on new technology for management of BPH -- Ch 74. Update on new technology for laparoscopy -- Ch 75. Update on new robotic devices for endourology -- Ch 76. Update on new devices for fusion biopsy of the prostate -- Ch 77. Update on New Robotic Devices for Urologic Surgery -- Ch 78. Update on new devices for navigation in endourology -- Part 20: Diseases of the Adrenal Gland -- Ch 79. Embryology of the adrenal glands -- Ch 80. Anatomy Of The Adrenal Glands -- Ch 81. Physiology of the Adrenal Gland -- Ch 82. Pathophysiology -- Ch 83. Imaging in Adrenal Tumours -- Ch 84. Surgery of the Adrenal Gland -- Part 21: Pediatric Urology -- Ch 85. Posterior Urethral Valves -- Ch 86. Vesicoureteric Reflux -- Ch 87. Megaureter -- Ch 88. UPJ obstruction -- Ch 89. Bladder exstrophy -- Ch 90. Epispadias -- Ch 91. Hypospadias -- Ch 92. Cryptorchidism -- Ch 93. Nocturnal Enuresis -- Ch 94. Daytime Lower Urinary Tract Conditions in Children -- Ch 95. Neuropathic bladder: Diagnostic procedures -- Ch 96. Neuropathic bladder, therapeutic approaches: medical and surgical management -- Ch 97. Ureterocele and Ectopic Ureter -- Ch 98. Urinary Tract Infections in Children -- Ch 99. Varicocele -- Part 22: The Importance of Guidelines -- Ch 100. The Importance of Clinical Practice Guidelines -- Part 23: Male hypogonadism -- Ch 101. Male Hypogonadism -- Part 24: Renal transplantation -- Ch 102. Medical aspects of renal transplantation -- Ch 103. Renal Transplantation Surgical Aspects --

Part 25: Upper tract urothelial disease -- Ch 104. Diagnosis of urothelial carcinoma of the upper urinary tract -- Ch 105. Biomarkers in Upper Tract Urothelial Cancer -- Ch 106. Non-muscle invasive disease and kidney sparing management -- Ch 107. Advanced upper tract tumors including surgery and systemic treatment -- Part 26: Primary urethral cancer -- Ch 108. Primary Urethral Carcinoma.

Sommario/riassunto

The Primer on Urology is an entirely new approach to reviewing the field of urology. The principle is to cover the whole subject of urology in an up-to-date textbook, with not only chapters written by key opinion leaders within Europe but also a significant commentary on each section from a senior North American urologist. The book is based on the European Association of Urology Guidelines, which are updated regularly with a new release every year. This will be a valuable book for anybody interested in urology but is designed in particular for the resident as well as the practising urologist who wants a crisp update of the latest developments in the field as well as the basic knowledge, all of which is succinctly presented with reference to the latest evidence-based approach to the subject.
