Sommario/riassunto	This book journeys into the dark territory of solitary confinement. It examines its practice in prisons, jails, immigration detention facilities, and even schools. It looks at international ethics codes such as that of the World Medical Association, the World Health Organization, and the

Declaration of Tokyo, all of which describe the prolonged use of solitary confinement as akin to torture. The author shows how the philosophical theories of Jeremy Bentham, John Stuart Mill, Aristotle, Immanuel Kant, John Rawls, and others provide an ethical framework for examining solitary confinement. With the aid of contemporary ethicists like Tom Beauchamp, Michael Boylan, Michel Foucault, Claudia Card and Nel Noddings, it also shows how we have the tools for dismantling a practice long overdue for reform. Students, faculty, and the general public will find Solitary Confinement: Philosophical Perspectives a call for change of an urgent human rights issue. Given that thousands of people have been subjected to such extreme isolation and sensory deprivation, this quest warrants our utmost consideration.
