

1. Record Nr.	UNINA9911018751003321
Autore	Deng Xiangzheng
Titolo	Development Geography // by Xiangzheng Deng, Malin Song
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2025
ISBN	981-9669-17-0
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (691 pages)
Altri autori (Persone)	SongMalin
Disciplina	910
Soggetti	Environmental geography Sustainability Environmental sciences - Social aspects Integrated Geography Environmental Social Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Disciplines of Development Geography -- Theories and methodologies of Development Geography -- Geographic differences in regional development -- Spatial pats of development in less developed regions -- Agglomeration and convergence of regional development process in developed regions.
Sommario/riassunto	This book provides practical insights into regional development, focusing on how economic, social, and environmental factors contribute to disparities across regions. It examines pressing global issues such as income inequality, climate change, and sustainable growth, offering strategies for addressing these challenges in both developed and developing countries. The book combines theoretical frameworks with case studies, policy analysis, and interdisciplinary methods, making it both academically rigorous and highly applicable for real-world solutions. Key features include in-depth regional comparisons, climate adaptation strategies, and detailed policy recommendations. The reader will gain a comprehensive understanding of how to navigate the complexities of regional development and implement effective, sustainable policies. Ideal for scholars, policymakers, and development practitioners, this book is designed to inspire informed decision-making and foster balanced growth across

regions.
