Sommario/riassunto	Praise for Credit Risk Scorecards ""Scorecard development is important to retail financial services in terms of credit risk management, Basel II compliance, and marketing of credit products. Credit Risk Scorecards provides insight into professional practices in different stages of credit scorecard development, such as model building, validation, and

implementation. The book should be compulsory reading for modern credit risk managers."-Michael C. S. Wong Associate Professor of Finance, City University of Hong Kong Hong Kong Regional Director, Global Association of R
