

1. Record Nr.	UNINA9911019088803321
Titolo	Alpine-Mediterranean Geodynamics
Pubbl/distr/stampa	[Place of publication not identified], : American Geophysical Union, 1982
ISBN	1-118-67024-8
Descrizione fisica	1 online resource (369 pages)
Disciplina	551/.09182/2
Soggetti	Geodynamics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	The final report on geodynamic research in the Alpine-Mediterranean region would be incomplete without a brief historical sketch on the structure and activities of ICG-Working Group 3. It should also be regarded an appreciation to the members and sponsors of the working group who have taken, over many years, an active part in the life of the working group and thereby contributed to the remarkable progress in our knowledge and understanding of the geological evolution of this complex region.
