

1. Record Nr.	UNINA9911019169303321
Titolo	Internal secretions of the pancreas // editors for the Ciba Foundation, G.E.W. Wolstenholme and Cecilia M. O'Connor
Pubbl/distr/stampa	London, : J. & A. Churchill, 1956
ISBN	9786613621276 9781280591440 1280591447 9780470718971 0470718978 9780470716427 0470716428
Descrizione fisica	1 online resource (324 p.)
Collana	Ciba Foundation colloquia on endocrinology ; ; v. 9
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) O'ConnorCecilia M <1927-> (Cecilia Mary)
Disciplina	616.4
Soggetti	Pancreas - Secretions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Proceedings of the Colloquium on the Nature and Actions of Internal Secretions of the Pancreas, held at the Ciba Foundation, June 21-23, 1955.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	CIBA FOUNDATION COLLOQUIA ON ENDOCRINOLOGY VOLUME 9; CONTENTS; Chairman's opening remarks; Morphological studies of the destruction of a-cells by chemical means; Discussion; Metabolic effects of a-cell destruction; Discussion; Pituitary growth hormone and blood insulin activity; Discussion; The control of the secretory activity of the islets of Langerhans; Discussion; The effects of hypophysectomy and of prolonged growth hormone administration on the pancreatic a-cells of the rat; Discussion; Fractionation of insulin; Discussion; The chemical structure of insulin; Discussion A concept of the three-dimensional structure of insulinA speculation on insulin; Discussion; Insulin and glucagon; Discussion; Chemical and biological characteristics of glucagon; Discussion; The action of glucagon on liver phosphorylase; Discussion; Inhibitory effect of glucagon on the insulin glucose uptake of the isolated diaphragm of

the rat; Discussion; The hepatic action of insulin; Discussion; Some problems of permeability of tissue cells to sugars; The transport of glucose and other sugars across cell membranes and the effect of insulin; Discussion; Pancreatic islets and growth DiscussionChairman's closing remarks

---

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
