

1. Record Nr.	UNINA9911019182903321
Autore	Magro Cynthia M
Titolo	The cutaneous lymphoid proliferations : a comprehensive textbook of lymphocytic infiltrates of the skin // Cynthia M. Magro, A. Neil Crowson, Martin C. Mihm
Pubbl/distr/stampa	Hoboken, N.J., : Wiley-Liss, c2007
ISBN	1-280-82662-2 9786610826629 0-470-05346-1 0-470-05345-3
Descrizione fisica	1 online resource (513 p.)
Altri autori (Persone)	CrowsonA. Neil MihmMartin C., Jr., <1934->
Disciplina	616.42
Soggetti	Lymphoproliferative disorders Skin - Diseases Skin - Tumors Lymphomas
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The Cutaneous Lymphoid Proliferations; CONTENTS; CHAPTER ONE Introduction to the Classification of Lymphoma; Kiel, Lukes-Collins, and Working Formulation Classifications; WHO, Real, and EORTC Classifications; Summary; References; Appendix: Definitions of Key Terms and Techniques; CHAPTER TWO The Therapy of Cutaneous T Cell Lymphoma; Introduction; Diagnostic Work-up and Staging Procedures; Goals of Therapy in Advanced Stage CTCL; Extracorporeal Photopheresis (ECP); Interferons; Retinoids; Immunotoxins; Monoclonal Antibodies; Cytotoxic Chemotherapy; Investigational Therapies Monoclonal AntibodiesTLR Agonists and Cytokines; Histone Deacetylase Inhibitors (HDACi); Allogeneic Hematopoietic Stem Cell Transplantation (allo-HSCT); CTCL Therapies; Skin-Directed Therapies; References; CHAPTER THREE Molecular Techniques; Introduction; Immunoglobulin Receptor Structure; IgH; TCR-; PCR Design for Determination of Clonality; Detection of PCR Products for Clonality;

Evaluation of Results; Limitations of Clonality Assessment by PCR; Summary; References; CHAPTER FOUR Benign Lymphocytic Infiltrates; Introduction; Spongiotic and Eczematous Dermatitis; Allergic Contact Dermatitis
Pityriasis RoseaPityriasis Rosea-like Drug Reaction; Other Spongiotic/Eczematous Tissue Reactions; Photoallergic Reactions; Other Causes of Subacute Eczematous Dermatitis; Nummular Eczema; Small Plaque Parapsoriasis; Pruritic Urticarial Plaques and Papules of Pregnancy; Superficial Erythema Annulare Centrifugum; Interface Dermatitis: Cell-Poor Vacuolar Interface Dermatitis; Erythema Multiforme; Gianotti-Crosti Syndrome (Popular Acrodermatitis of Childhood); Acute Graft-Versus-Host Disease; Morbiliform Viral Exanthem and Morbiliform Drug Eruption
Collagen Vascular Disease Compatible with Antibody-Dependent Cellular Immunity and/or Anti endothelial Cell AntibodiesInterface Dermatitis: Lichenoid Pattern; Lichen Planus; Lichen Planus-like Eruptions of Hepatobiliary Disease; Lichen Planus-like Eruptions of Secondary Syphilis; Lichenoid Drug Reactions; Lichenoid Connective Tissue Disease Syndromes; Lichenoid ("Chronic") Graft-Versus-Host Disease; Diffuse and Nodular Lymphocytic Dermal Infiltrates Without Atypia; Polymorphous Light Eruption as the Prototypic Type IV Immune Reaction; Other Dermal Perivascular Lymphocytic Infiltrates
Gyrate ErythemasDiffuse and Nodular Lymphocytic Infiltrates Associated with Autoimmune Disease; Nonscarring Discoid Lupus Erythematosus/Tumid Lupus Erythematosus; Morphea; Jessner's Lymphocytic Infiltrate of the Skin; References; CHAPTER FIVE Reactive Lymphomatoid Tissue Reactions Mimicking Cutaneous T and B Cell Lymphoma; Lymphomatoid Drug Eruptions; Molecular Profile of Lymphomatoid Drug Eruptions; Pathogenetic Basis of Lymphomatoid Drug Reactions; Reactive Lymphomatoid Lesions Encountered in Lesions of Collagen Vascular Disease; Lymphomatoid Lupus Erythematosus
Pathogenesis of Lymphomatoid Tissue Response in Collagen Vascular Disease

Sommario/riassunto

A complete reference to the latest understanding of lymphocytic infiltrates The Cutaneous Lymphoid Proliferations provides a complete, authoritative treatment of the clinical features, phenotypes, pathogenesis, histopathology, diagnosis, and treatment of lymphocytic infiltrates of the skin. Incorporating the latest findings from the fields of light microscopy, immunohistochemistry, and flow cytometry, the book brings readers up to date on the most current thinking in the field. Those readers familiar with the authors' critically acclaimed The Melanocytic Proliferat
