

1. Record Nr.	UNINA9911019191603321
Autore	Sutton Roger J.
Titolo	Secure communication: applications and management
Pubbl/distr/stampa	[Place of publication not identified], : John Wiley & Sons Incorporated, 2002
ISBN	1-280-55470-3 9786610554706 0-470-84599-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (334 pages)
Disciplina	621.3828
Soggetti	Electrical & Computer Engineering Engineering & Applied Sciences Telecommunications
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	If you need to know more about communication's security management, this is the perfect book for you...Secure Communications confronts the practicalities of implementing the ideals of the security policy makers. Based on 15 years experience, the author addresses the key problems faced by security managers, starting from network conception, initial setting up and the maintenance of network security by key management. Many different types of communications networks are discussed using a wide range of topics, including voice, telephone, mobile phone, radio, fax, data transmission and storage, IP, and Email technologies. Each topic is portrayed in a number of different operational environments.* Explains the practical links between cryptography and telecommunications* Addresses the pertinent issues of implementation of cryptography as a method of protecting information* Supports each communications technology and the fundamentals of cryptography with useful and relevant telecommunications material* Provides practical solutions by network modelling and stimulating the reader's imagination on how to deal with their own network protection* Highlights the need for a structured

infrastructure in an organisation's security that complements the technical solutions. Easy to read and highly illustrated, this timely publication probes the sensitive issues that manufacturers and agencies prefer to avoid and uses eye opening, historical events, to highlight the failings and weaknesses of the past and present. So if you work within the areas of telecommunications and security or are a researcher or student eager to know more, read on...
