Nota di contenuto	Introduction : beyond biopolitics -- Agonal sovereignty : rethinking war and politics in an age of terror -- Nothing to fear but fear itself : governmentality and the reproduction of terror -- The nomos of exception and the virtuality of geopolitical space -- The horror of enmity : rethinking alterity in the age of global war -- Conclusion : facing horrific violence.
Sommario/riassunto	Beyond Biopolitics exposes the conceptual limits of critical biopolitical approaches to violence, war, and terror in the post-9/11-War on Terror era. This volume shows that such popular international political theories rely upon frames of representation that leave out of focus a series of extreme forms of gruesome violence that have no concern for the preservation of life, a crucial biopolitical theme. Debrix and Barder mobilize different concepts-horror, agonal sovereignty, the pulverization of the flesh, or the notion of an inhumanity-to-come-to shed light on past and prese

Sommario/riassunto	Endorsed by the British Equine Veterinary Association, this book aims to cover the syllabus for the new RCVS equine veterinary nursing certificate. It covers subjects such as medical and surgical equine nursing, basic equine management and the theory underpinning these topics. It also includes chapters on nutrition, imaging and anatomy and physiology not previously well covered for the equine at a level

appropriate for nurses. The approach is practical and the book is laid out in a user-friendly manner with copious illustrations.
