

1. Record Nr.	UNINA9911019205503321
Autore	Janick Jules <1931->
Titolo	Horticultural Reviews . Volume 11
Pubbl/distr/stampa	Hoboken, : John Wiley & Sons, 1989
ISBN	1-118-06084-9
Descrizione fisica	1 online resource (488 p.)
Collana	Horticultural Reviews ; ; v. 11
Disciplina	631.5305
Soggetti	Plant breeding -- Periodicals Plant breeding
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Horticultural Reviews Volume 11; Contents; Contributors; Dedication; 1 Approaches to Phytohormone Studies on Regulation of Plant Processes: A Reassessment; I. Introduction; II. Statement of the Problem; III. Hormone: Event Parallel Variation; IV. Other Approaches to the Study of Bioregulators; V. Multiple Hypotheses and Approaches; VI. Concluding Remarks; Literature Cited; 2 Physiology and Biochemistry of Flower Petal Senescence; I. Introduction; II. Biochemical Changes in Senescing Petals; III. Regulation of Petal Senescence; IV. Summary and Concluding Remarks; Literature Cited 3 Freeze Protection for Horticultural CropsI. Introduction; II. Passive Freeze Protection; III. Active Freeze Protection; IV. Concluding Remarks; Literature Cited; 4 Environmental and Physiological Regulation of Photosynthesis in Fruit Crops; I. Introduction; II. Methodology and Units; III. Environmental Factors; IV. Physiological Factors (Internal); V. Future Needs; Literature Cited; 5 Seedlessness in Grapes; I. Introduction; II. Anatomy; III. Inheritance; IV. Plant Growth Regulators; V. Future Development; Literature Cited; 6 Productivity in Red Raspberries; I. Introduction; II. Phenology III. PhysiologyIV. Cultural Practices; V. Genetic Factors; VI. Possibilities for Further Research; Literature Cited; 7 The Relationship Between Vegetative Growth and Fruiting in Apple Trees; I. Introduction; II. Seasonal Growth Pattern of Apple Trees; III. Factors Affecting Vegetative Growth; IV. Factors Affecting Flowering and Fruiting; V. Vigor; VI. Vegetative Growth-Fruiting Interactions; VII. Effective Management;

Literature Cited; 8 Bitter Pit in Apple Fruit; I. Introduction; II. Definition and Description; III. Cultivar Susceptibility; IV. Factors Involved in Bitter Pit
V. Physiology of Bitter Pit Development VI. Concluding Remarks;
Literature Cited; 9 Physiological Disorders and Maladies of Pear Fruit; I. Introduction; II. Classification of Disorders and Maladies; III. Description, Causes and Control of Preharvest Physiological Disorders; IV. Description, Causes and Control of Postharvest Physiological Disorders; V. Summary and Conclusions; Literature Cited; 10 Postharvest Physiology of Peaches and Nectarines; I. Introduction; II. Cultural Factors; III. Harvest Maturity; IV. Fruit Handling; V. Prestorage Treatments; VI. Storage Conditions
VII. Ethylene Effects During Storage VIII. Ripening of Immature Fruits; IX. Physiology of Mature Fruits; X. Susceptibility to Internal Browning; XI. Respiratory Activity; XII. Chilling Effects on Membrane Permeability; XIII. Fruit Composition; XIV. Cell Walls; XV. Ripening Enzymes; XVI. Fruit Browning; XVII. Conclusions; Literature Cited; Subject Index; Cumulative Subject Index; Cumulative Contributor Index

Sommario/riassunto

Horticultural Reviews presents state-of-the-art reviews on topics in horticultural science and technology covering both basic and applied research. Topics covered include the horticulture of fruits, vegetables, nut crops, and ornamentals. These review articles, written by world authorities, bridge the gap between the specialized researcher and the broader community of horticultural scientists and teachers.
