

1. Record Nr.	UNINA9911019230803321
Autore	Romagny Bruno
Titolo	Biosphere Reserves and Sustainable Development Goals 2 : Issues, Tensions, Processes and Governance in the Mediterranean
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2024 ©2024
ISBN	9781394276455 1394276451 9781394276431 1394276435
Edizione	[1st ed.]
Descrizione fisica	1 online resource (345 pages)
Altri autori (Persone)	CibienCatherine BarthesAngela
Disciplina	333.78091822
Soggetti	Biosphere reserves Sustainable development
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- Presentation of the Authors of the Two Volumes -- Introduction -- Part 1. Process, Governance and Climate Change Across the Mediterranean -- Introduction to Part 1 -- Chapter 1. Biosphere Reserves in National Legislation and Public Policy -- 1.1. Introduction -- 1.2. The place of the "biosphere reserve" in national legislation -- 1.3. The place of MAB national committees in national governments -- 1.3.1. In Spain -- 1.3.2. In France -- 1.3.3. In Morocco -- 1.3.4. In Lebanon -- 1.4. The place of the "biosphere reserve" model in public policy -- 1.4.1. In Spain -- 1.4.2. In France -- 1.4.3. In Morocco -- 1.4.4. In Lebanon -- 1.5. Discussion -- 1.6. References -- Chapter 2. The Emergence and Evolution of Mediterranean Biosphere Reserves in France -- 2.1. Profound changes across first-generation sites (1977) -- 2.2. The recognition of local development projects promoting natural and cultural heritage -- 2.3. References -- Chapter 3. Perspectives on Mediterranean Biosphere Reserves -- 3.1. Close-up on the strengthening of the Mont Ventoux Biosphere Reserve's governance --

3.1.1. Introduction -- 3.1.2. An iconic Mediterranean mountain --
 3.1.3. Conserving and developing the assets of an exceptional area --
 3.1.4. Governance evolving with the times -- 3.2. Close-up on the
 Montseny Biosphere Reserve -- 3.3. Close-up on the Menorca
 Biosphere Reserve -- 3.4. Close-up on environmental education and
 SDGs, an opportunity for Mediterranean Biosphere Reserves -- 3.5.
 Close-up on the Intercontinental Biosphere Reserve of the
 Mediterranean -- 3.6. References -- Chapter 4. From the Ecological
 Quality Status Evaluation to the Knowledge Transferability. A Cross-
 cutting Experience in Montseny Biosphere Reserve -- 4.1. Introduction
 -- 4.2. Mediterranean river basins as valuable and complex socio-
 ecosystems.
 4.2.1. The evaluation of ecological quality status -- 4.2.2. Knowledge
 transfer and environmental education -- 4.3. Study area: Montseny
 Biosphere Reserve -- 4.3.1. Observatori Rivus, a cross-cutting project
 in Mediterranean river basins -- 4.3.2. Sampling units -- 4.4. Research
 areas -- 4.4.1. Biological monitoring -- 4.4.2. Hydromorphological
 monitoring -- 4.4.3. Physicochemical monitoring -- 4.5. Environmental
 education, communication and training program -- 4.5.1. Formal
 education -- 4.5.2. Nonformal education -- 4.5.3. Informal
 environmental education -- 4.6. A 15-year period implementing
 PROECA in the Montseny Biosphere Reserve -- 4.7. Conclusion -- 4.8.
 Acknowledgements -- 4.9. References -- Chapter 5. Do We Need to
 Choose Between Biodiversity, Industry and Tourism? A Metabolic
 Approach to Manage the Mediterranean Biosphere Reserve of Menorca
 -- 5.1. Introduction -- 5.2. Societal metabolism -- 5.3. MuSIASEM:
 integrating information from multiple scales to improve participation
 and stakeholder engagement -- 5.4. The case of Menorca: a
 Mediterranean Biosphere Reserve with an action plan to implement the
 sustainable development goals -- 5.5. Menorca 2025. An Action Plan
 for the Menorca Biosphere Reserve -- 5.6. Metabolic performance of
 economic sectors in Menorca. Application of the MuSIASEM approach --
 5.7. Discussion: do we need to choose between biodiversity, industry
 and tourism? -- 5.8. Conclusion -- 5.9. References -- Chapter 6. The
 Jabal Moussa Biosphere Reserve (Lebanon): A Private Association
 Initiative -- 6.1. Introduction -- 6.2. Rich by nature -- 6.3. A privately
 run biosphere reserve -- 6.4. International recognition -- 6.5.
 Administration led by socio-economic expectations -- 6.6. Efforts at
 increasing understanding and awareness of an exceptional biodiversity
 -- 6.7. References.
 Chapter 7. Understandings of Administration and Challenges to
 Governance in the Arganeraie Biosphere Reserve (Morocco) -- 7.1.
 Introduction -- 7.2. A biosphere reserve built around an iconic tree: the
 argan tree -- 7.3. An integrated approach to conservation and
 ecodevelopment -- 7.4. Participation-oriented administration -- 7.5.
 Regarding the research/education/management dialogue -- 7.6.
 References -- Chapter 8. Reconciling Conservation and Sustainable
 Development: The Example of the Arganeraie -- 8.1. Introduction --
 8.2. The ABR, between conservation and sustainable territorial
 development: reconciling the irreconcilable -- 8.3. The complex
 challenges characterizing the ABR, or relevance and adaptation in
 conciliatory resilience -- 8.4. Changes and scalable trends in the ABR:
 from project territories to a territorial project -- 8.5. The ABR,
 complexities and improved governance -- 8.6. References -- Chapter
 9. Patrimonialization and Challenges to Sustainable Development within
 the Arganeraie Biosphere Reserve -- 9.1. Introduction -- 9.2. The ABR:
 a territory valued for the endemism of its heritage resources -- 9.2.1.
 The ABR: the context of its creation and functions -- 9.2.2. The

Arganeraie: a resource deposit under anthropogenic pressure -- 9.3.
The ABR patrimonialization process -- 9.4. Paths of governance for the integrated management of the ABR -- 9.4.1. The path of the contract -- 9.4.2. The path of deliberation: consultation and concertation -- 9.4.3. The path of incentivization -- 9.4.4. The path of institutional rearrangement -- 9.5. Conclusion -- 9.6. References -- Chapter 10. The Oasis du Sud Marocain Biosphere Reserve: Challenges and Issues for the Durability of Water Resources -- 10.1. Introduction -- 10.2. Specificities of the Oasis du Sud Marocain Biosphere Reserve and the question of water. 10.3. Regional development and the deterioration of water resources -- 10.4. Challenges and complexities of water resource management within the OSMBR -- 10.5. Conclusion -- 10.6. References -- Part 2. Issues and Case Studies in the Southern Mediterranean -- Introduction to Part 2 -- Chapter 11. Pesticide Residue in the Waters of the IBRM -- 11.1. Introduction -- 11.2. Materials and methods -- 11.2.1. Materials used -- 11.2.2. Methods used and procedures of analysis -- 11.3. Results and discussions -- 11.3.1. Pesticide use -- 11.3.2. Water compartment contamination risks in the upstream reaches of the Intercontinental Biosphere of the Mediterranean (IBRM) -- 11.4. Evaluation of the risks of pesticides to human health -- 11.5. Evaluation of the risks of pesticides for the environment -- 11.6. Conclusion -- 11.7. References -- Chapter 12. Forest Fires: Their Impact on the Sustainable Development of the IBRM -- 12.1. Introduction -- 12.2. The phenomenon of forest fires in the northern provinces -- 12.3. Links between sustainable development and forest fires -- 12.4. Conclusion -- 12.5. References -- Chapter 13. The Social and Solidarity Economy and Biodiversity in the Intercontinental Biosphere of the Mediterranean -- 13.1. Some framing of the concept of the social and solidarity economy -- 13.2. Development of natural resources in the Intercontinental Biosphere Reserve of the Mediterranean (IBRM) and the SSE framework -- 13.3. The role of the SSE in the conservation and development of natural resources -- 13.4. Conclusion -- 13.5. References -- Chapter 14. The Media Coverage of the Biosphere Reserve: Ambivalence Between the Protection of Nature and the Promotion of Territories. The Case of RBIM -- 14.1. Introduction -- 14.2. Biosphere reserves: general background -- 14.3. The media environment around the biosphere reserve. 14.3.1. Place of the biosphere reserve in the media channel -- 14.3.2. Role of media and biosphere reserve actors -- 14.4. Representation of RBIM in the Moroccan media -- 14.4.1. Role of stakeholders in the visibility and access to RBIM -- 14.4.2. Measures and strategies for improving the biosphere reserves -- 14.5. Concluding remarks -- 14.6. References -- Chapter 15. Mid-Atlas Cedar Forests and Climate Change -- 15.1. Introduction -- 15.2. General overview of climatic changes -- 15.2.1. General aspects of climate change in the Mediterranean region -- 15.2.2. Effects of drought on trees and forest stands -- 15.2.3. The role of forest stands with regard to the water retention capacity of soils -- 15.2.4. Potential strategies for facing climate change -- 15.3. The vulnerability of forests to climate change -- 15.3.1. The vulnerability of Morocco's climatic context and foreseeable changes -- 15.3.2. Deterioration, deforestation and transformation of forest habitats -- 15.3.3. Cedar diebacks: an indicator of climate change -- 15.4. Potential impacts of climate change on cedar forests -- 15.4.1. Elements of the Atlas cedar vulnerable to climate change -- 15.4.2. Impact on the growing season and distribution area of the cedar -- 15.5. Conclusion -- 15.6. References -- Chapter 16. The Legacy and Future of Conservation in El

Kala National Park (Algeria) -- 16.1. Introduction -- 16.2. Declinism, forest exploitation and management in the EKNP -- 16.2.1. The legacy of declinism in the EKNP -- 16.2.2. Uses of the EKNP's natural resources -- 16.2.3. The structure of rural revenue in the EKNP -- 16.2.4. Conservation for improved exploitation -- 16.3. The spread of fishing and marine conservation in the EKNP -- 16.3.1. Lake and lagoon fishing -- 16.3.2. Maritime fishing -- 16.3.3. Trawling -- 16.3.4. Seine purse fishing -- 16.3.5. Drift net and longline fishing. 16.4. Marine conservation and declinist rhetoric.

Sommario/riassunto

This book, part of the Erasmus+ EduBioMed project, examines the role of biosphere reserves in the Mediterranean region in relation to Sustainable Development Goals. Edited by Bruno Romagny, Catherine Cibien, and Angela Barthes, it addresses the issues, tensions, and governance processes involving these reserves. The book highlights the integration of biosphere reserves into national legislation and public policy in countries like Spain, France, Morocco, and Lebanon. It also explores the development and governance of specific reserves such as Mont Ventoux, Montseny, and Menorca, and their contributions to environmental education and sustainable development. Aimed at researchers, policymakers, and educators, the publication seeks to enhance understanding and management practices of Mediterranean biosphere reserves.
