Sommario/riassunto	This book is a practical guide for private equity investors. It sets out a framework for understanding, assessing and managing the risks associated with senior management during the due diligence process of an acquisition. This provides an essential input into the wider due

diligence review and a sound basis for managing the investment after the deal has been done so as to maximise the chances of a successful exit. The book comes at a time of significant growth in the field of private equity. In the UK over 3 million people (around 18% of all private sector employees) now work for private eq
