

1. Record Nr.	UNINA9911019252803321
Titolo	Biodiversity conservation and poverty alleviation : exploring the evidence for a link // edited by Dilys Roe ... [et al.]
Pubbl/distr/stampa	Hoboken, N.J., : Wiley, 2013
ISBN	9781118428351 1118428358 9781118428511 111842851X 9781283993654 1283993651 9781118428481 111842848X
Edizione	[4th ed.]
Descrizione fisica	1 online resource (463 p.)
Collana	Conservation science and practice series ; ; no. 12
Altri autori (Persone)	RoeDilys
Disciplina	333.95/16
Soggetti	Biodiversity conservation - Economic aspects Poverty - Prevention - Environmental aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Biodiversity, ecosystem services and poverty : the potential for synergies -- pt. 2. Biodiversity and poverty relationships in different ecological settings -- pt. 3. Poverty impacts of different conservation interventions -- pt. 4. Distributional and institutional issues -- pt. 5. Biodiversity and poverty relationships in the context of global challenges.
Sommario/riassunto	Biodiversity conservation and poverty alleviation are both important societal goals demanding increasing international attention. While they may seem to be unrelated, the international policy frameworks that guide action to address them make an explicit assumption that conserving biodiversity will help to tackle global poverty. Part of the Conservation Science and Practice Series published with the Zoological Society of London, this book explores the validity of that assumption. The book addresses a number of critical questions: Which aspects of

biodiversity are of value
