

1. Record Nr.	UNINA9911019347203321
Titolo	Polymer dispersions and their industrial applications
Pubbl/distr/stampa	[Place of publication not identified], : Wiley VCH, 2002
ISBN	1-280-55831-8 9786610558315 3-527-60058-2
Descrizione fisica	1 online resource (417 pages)
Disciplina	620.1/92
Soggetti	Water-soluble polymers Organic Chemistry Chemistry Physical Sciences & Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Dispersions are used as coatings and adhesives. They consist of small particles which are dispersed in a solvent. Because large quantities of solvent are required, environmentally-friendly solvents are increasingly important. This book discusses the fundamentals of aqueous polymer dispersions, among the most used solvents, with particular focus on applications.
