

1. Record Nr.	UNINA9911019351103321
Titolo	Ciba Foundation Symposium jointly with the International Union of Biological Sciences on biochemistry of human genetics // editors for the Ciba Foundation, G.E.W. Wolstenholme and Cecilia M. O'Connor
Pubbl/distr/stampa	Boston, : Little, Brown and Co., 1959
ISBN	9786613679413 9781280768644 1280768649 9780470719152 047071915X 9780470716656 0470716657
Descrizione fisica	1 online resource (370 p.)
Collana	Ciba Foundation symposia
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) O'ConnorCecilia M <1927-> (Cecilia Mary)
Disciplina	575.1
Soggetti	Human genetics Biochemical genetics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	BIOCHEMISTRY OF HUMAN GENETICS; CONTENTS; Address of welcome; Chairman's opening remarks; Genetical analysis in Man; Discussion; Biochemical genetics as illustrated by hereditary galactosaemia; Discussion; Cholinesterase types; Discussion; Genetical variation and sense perception; Discussion; The genetics of primaquine sensitivity of the erythrocytes; Discussion; Chemical and genetical units of the haemoglobin molecule; Discussion; The genetical control of protein structure : the abnormal human haemoglobins; Discussion; Short communication : Studies of foetal myoglobin Genetics of the plasma protein variantsDiscussion; Biochemical aspects of the inherited variations in human serum: haptoglobins and transferrins; Discussion; Some immunochemical aspects of the products of the human blood group genes; Some genetical aspects of the biosynthesis of human blood group substances; Discussion;

Physiological genetics of human blood factors. Immunogenetics-
General considerations; Discussion; Hereditary gamma globulin groups
in Man; Discussion; Panel discussion on the approach by tissue culture;
The mechanism of gene action; Discussion; General discussion

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the
proceedings from Novartis Foundation Symposia, in which groups of
leading scientists from a range of topics across biology, chemistry and
medicine assembled to present papers and discuss results. The
Novartis Foundation, originally known as the Ciba Foundation, is well
known to scientists and clinicians around the world.
