

1. Record Nr.	UNINA9911019391503321
Autore	Gjerde Douglas T
Titolo	DNA chromatography
Pubbl/distr/stampa	[Place of publication not identified], : Wiley VCH, 2002
ISBN	1-280-55844-X 9786610558445 3-527-60074-4
Descrizione fisica	1 online resource (238 pages)
Disciplina	572.8/6
Soggetti	DNA - Analysis Chromatographic analysis DNA Chromatography, High Pressure Liquid Genetic Techniques Investigative Techniques Nucleic Acids Chromatography, Liquid Nucleic Acids, Nucleotides, and Nucleosides Analytical, Diagnostic and Therapeutic Techniques and Equipment Chromatography Chemistry Techniques, Analytical Chemicals and Drugs Animal Biochemistry Human Anatomy & Physiology Health & Biological Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	This book describes a powerful and effective tool for the molecular biologist researcher. Readers will discover how DNA chromatography can be used in their own work. Intended as an introduction for the

molecular biologist reader, this will also serve as a practical guide for the experienced user. The clear and concise writing style is also attractive to the chemist who wants to learn more about molecular biology.
