Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Reproduction of original in the Bodleian Library.
Sommario/riassunto	eebo-0014

2. Record Nr.	UNINA9911019392803321
Autore	Stouffer George A
Titolo	Cardiovascular Hemodynamics for the Clinician
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2025 ©2025
ISBN	9781394239344 1394239343 9781394239368 139423936X 9781394239351 1394239351
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (477 pages)
Disciplina	616.12075
Soggetti	Hemodynamics Heart - Diseases - Diagnosis Heart - Diseases - Treatment Handbooks and manuals
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction to basic hemodynamic principles / James E. Faber and George A. Stouffer -- The nuts and bolts of right heart catheterization and PA catheter placement / Vickie Strang and George A. Stouffer -- Normal hemodynamics / revised and updated by George A. Stouffer.
Sommario/riassunto	"A reliable and useful reference for understanding the practical application of hemodynamics in clinical medicine. This concise handbook will help clinicians better understand and interpret hemodynamic data used to make specific diagnoses and monitor ongoing therapy. The book is divided into chapters which discuss the hemodynamic findings in specific cardiac conditions including valvular heart disease, cardiomyopathies, myocardial infarction, pericardial disease, hemodynamic support, arrhythmias and coronary hemodynamics. There are chapters on the hemodynamics of transcatheter valves, cardiogenic shock and mechanical support

devices. There is a section on the basics of hemodynamics that will be particularly useful to physicians and advanced practice providers who are new to hemodynamics. The book is designed to be used by cardiologists, intensivists, anesthesiologists and surgeons"-- Provided by publisher.
