Sommario/riassunto	In this important survey, an international group of leading philosophers

chart the development of philosophy of education in the twentieth century and point to significant questions for its future. Presents a definitive introduction to the core areas of philosophy of education. Contains 20 newly-commissioned articles, all of which are written by internationally distinguished scholars. Each chapter reviews a problem, examines the current state of the discipline with respect to the topic, and discusses possible futures of the field. Provides a solid foundati
