

1. Record Nr.	UNINA9911019496703321
Titolo	Information processing biases and anxiety : a developmental perspective // edited by Julie A. Hadwin and Andy Field
Pubbl/distr/stampa	Chichester, West Sussex ; ; Malden, MA, : Wiley-Blackwell, 2010
ISBN	9786612686634 9781282686632 1282686631 9780470661468 0470661461 9780470661451 0470661453
Descrizione fisica	1 online resource (345 p.)
Altri autori (Persone)	HadwinJulie A FieldAndy P
Disciplina	155.4/1246
Soggetti	Anxiety in children Human information processing in children
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Information Processing Biases and Anxiety; Contents; List of Contributors; Preface; 1. An Introduction to the Study of Information Processing Biases in Childhood Anxiety: Theoretical and Methodological Issues; Theoretical and Research Issues; 2. Anxiety-Related Reasoning Biases in Children and Adolescents; 3. The Emotional Stroop Task in Anxious Children; 4. Selective Attention to Threat in Childhood Anxiety: Evidence from Visual Probe Paradigms; 5. The Use of Visual Search Paradigms to Understand Attentional Biases in Childhood Anxiety 6. Using Eye Tracking Methodology in Children with Anxiety Disorders7. The Assessment of Fear-Related Automatic Associations in Children and Adolescents; 8. Application of Cognitive Neuroscience Techniques to the Study of Anxiety-Related Processing Biases in Children; The Origin and Treatment of Information Processing Biases in Child Anxiety; 9. Genetics; 10. Temperamental Factors Associated with the Acquisition of Information Processing Biases and Anxiety; 11.

Learning of Information Processing Biases in Anxious Children and Adolescents

12. Intergenerational Transmission of Anxious Information Processing Biases  
13. Attentional Biases in Children: Implications for Treatment;  
Index

Sommario/riassunto

With contributions from a global team of experts this book provides a comprehensive overview of information processing biases in children and adolescents. The first book to provide readers with an understanding of anxiety and the role of information processing biases more broadly in the context of developmental psychopathology. Demonstrates how researchers have explored diverse aspects of information processing in anxious children and adolescents. Draws on the microparadigms used in the study of development and psychopathology to consider issues related to heritability, temperament,
