

1. Record Nr.	UNINA9911019555403321
Autore	Leibundgut Christian
Titolo	Tracers in hydrology // Christian Leibundgut, Piotr Maloszewski, Christoph Kulls
Pubbl/distr/stampa	Oxford ; ; Hoboken, NJ, : John Wiley & Sons, c2009
ISBN	1-282-30226-4 9786612302268 0-470-74714-5 0-470-74715-3
Descrizione fisica	1 online resource (441 p.)
Altri autori (Persone)	MaloszewskiPiotr KullsChristoph
Disciplina	551.49028/4
Soggetti	Radioactive tracers in hydrogeology Groundwater tracers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Tracers in Hydrology; Contents; Preface; Acknowledgements; 1 Introduction; 2 The Integrated Concept of Tracers in Hydrology; 3 Environmental Tracers; 4 Artificial Tracers; 5 Mathematical Modelling of Experimental Data; 6 Technical Instructions; 7 Case Studies; Colour Plate Section; References; Index
Sommario/riassunto	Tracers in Hydrology and Water Research is a comprehensive overview of the application of natural and artificial tracers in hydrology and environmental research. Taking a unique approach by providing the reader with a systematic and state of the art description of natural and artificial tracers, the book also covers key analytical techniques and applications, and modern tracer methods in the context of systematic hydrology. Tracers have become a primary tool for process investigation, qualitative and quantitative system analysis and integrated resource management. This book will
