| 1. Record Nr. | UNINA9911019576803321 |
| Titolo | Mutation as cellular process : a Ciba Foundation symposium / / edited by G.E.W. Wolstenholme and Maeve O'Connor |
| Pubbl/distr/stampa | London, : J. & A. Churchill Ltd., 1969 |
| ISBN | 9786613618313 9781280588488 1280588489 9780470719718 0470719710 9780470717349 0470717343 |
| Descrizione fisica | 1 online resource (258 p.) |
| Collana | Novartis Foundation Symposia ; ; v.996 |
| Altri autori (Persone) | WolstenholmeG. E. W (Gordon Ethelbert Ward) O'ConnorMaeve |
| Disciplina | 575.2/92 |
| Soggetti | Mutagenesis |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | "With 48 illustrations"--T.p. verso. |
| Nota di bibliografia | Includes bibliographical references and indexes. |
| Nota di contenuto | MUTATION AS CELLULAR PROCESS; Contents; Chairman's opening remarks; Influence of the host on the induction and expression of mutations in phage kappa; Discussion; Influence of cellular physiology on the realization of mutations-results and prospects; Discussion; Enhancement and diminution of ultraviolet-light- initiated mutagenesis by post-treatment with caffeine in Escherichia coli; Allele-specific responses t o factors that modify U.V. mutagenesis; Discussion; Analysis of a case of mutagen specificity in Neurospora crassa; Discussion Repair of latent T5-resistant mutants in chemostat culturesDiscussion; General Discussion; The nature and influence of ultraviolet and hydroxylamine lesions in nucleic acids and the enzymic repair of the former; Discussion; Nature of alkylation lesions and their repair: significance for ideas on mutagenesis; Discussion; The effect of ribosome alterations on ribosome function, and on expression of ribosome and non- ribosome mutations; Discussion; Aspects of |

modification of nucleic acids in mutational processes; Discussion;
Relationships between recombination and mutation; Discussion
General DiscussionObserved mutation frequency in mice and the chain
of processes affecting it; Discussion; Final Discussion; Author index;
Subject index

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the
proceedings from Novartis Foundation Symposia, in which groups of
leading scientists from a range of topics across biology, chemistry and
medicine assembled to present papers and discuss results. The
Novartis Foundation, originally known as the Ciba Foundation, is well
known to scientists and clinicians around the world.
