

1. Record Nr.	UNINA9911019661403321
Titolo	Ciba Foundation Symposium on the Regulation of Cell Metabolism / / editors for the Ciba Foundation: G. E. W. Wolstenholme and Cecilia M. O'Connor
Pubbl/distr/stampa	London, : J & A Churchill, 1959
ISBN	9786613619655 9781280589829 1280589825 9780470719145 0470719141 9780470716632 0470716630
Descrizione fisica	1 online resource (412 p.)
Collana	Novartis Foundation Symposia ; ; v.900
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) O'ConnorCecilia M <1927-> (Cecilia Mary)
Disciplina	574.8 574.876
Soggetti	Cell metabolism - Regulation Cytology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	CIBA FOUNDATION SYMPOSIUM ON THE REGULATION OF CELL METABOLISM; PREFACE; CONTENTS; Chairman's introductory address. Rate-limiting factors in cell respiration; Discussion; On the meaning of intracellular structure for metabolic regulation; Discussion; Some topographical aspects of the regulation of cell metabolism; Discussion; Control of rate of intracellular respiration; Discussion; Quantitative aspects of the control of oxygen utilization; Discussion; Control points in phosphorylating respiration and the action of a mitochondria1 respiration-releasing factor; Discussion Some problems in the choice of oxidative pathways of carbohydrate metabolismDiscussion; Short Communication : Recent observations on the mechanism of glycogen syn- thesis in muscle; Alternative pathways

of electron transport; Discussion; Limiting factors in glycolysis of ascites tumour cells and the Pasteur effect; Discussion; Role of triphosphopyridine nucleotide in the regulation of glycolysis in a cell-free preparation; Discussion; Phosphate turnover and Pasteur effect; Discussion; Enzymic regulation of fermentation in yeast cells; Discussion

Mechanisms for control of enzyme synthesis and enzyme activity in bacteriaDiscussion; Automatic adjustment mechanisms in bacterial cells; Discussion; Regulation of growth and composition of the bacterial cell; Discussion; General Discussion

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
