| Livello bibliografico   | Monografia   |
| Note generali           | Bibliographic Level Mode of Issuance: Monograph  |
| Nota di contenuto       | V. 11b. Environmental processes II : soil decontamination / edited by J. Klein -- v. 11c. Environmental processes III : solid waste and waste gas treatment, preparation of drinking water / edited by J. Klein and J. Winter.   |
| Sommario/riassunto      | Volume 11a on the biotechnology of wastewater is succeeded by the second of three volumes on environmental processes: Volume 11b gives a profound overview of the decontamination of soil. Part I deals with general aspects of soil decontamination. Microbial fundamentals and particular degradation processes are dealt with in Part II, and analytical techniques and methods of soil clean-up are presented in Part III. |
