

1. Record Nr.	UNINA9910586583003321
Autore	Gabbar Hossam A.
Titolo	Fast charging and resilient transportation infrastructures in smart cities // Hossam A. Gabbar
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	9783031095009 9783031094996
Descrizione fisica	1 online resource (295 pages)
Disciplina	629.286
Soggetti	Transportation - Planning Battery charging stations (Electric vehicles)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Contents -- Chapter 1: Introduction -- 1.1 Mobility -- 1.2 Transitioning of Transportation Technologies -- 1.3 Transportation Electrification and Charging Technologies -- 1.4 Challenges of Fast- Charging Station Development -- 1.5 Summary -- References -- Chapter 2: Requirement Analysis of Fast-Charging Stations -- 2.1 Introduction -- 2.2 Requirement Analysis of Fast-Charging Station -- 2.3 FCS Design Requirements -- 2.3.1 [A1] Energy Management System Design -- 2.3.2 [A2] Protection System Design -- 2.3.3 [A3] Design FCS Simulation Models -- 2.3.4 [A4] Charging Unit Design -- 2.3.5 [A5] FCS Layout Design -- 2.3.6 [A6] Design Optimization -- 2.3.7 [A7] Design Grid Interface -- 2.3.8 [A8] Filter Design -- 2.3.9 [A9] AC-DC Converter Design -- 2.3.10 [A10] Transformer Design -- 2.3.11 [A11] DC-DC Converter Design -- 2.3.12 [A12] Control System Design -- 2.4 FCS Facility -- 2.4.1 [B1] Manage Incoming Vehicles -- 2.4.2 [B2] Manage Financial Model -- 2.4.3 [B3] Manage Standards -- 2.4.4 [B4] Manage FCS Risks -- 2.4.5 [B5] Manage FCS Facility Operation -- 2.4.6 [B6] Manage Charging Requests -- 2.5 Manage Energy System in FCS -- 2.5.1 [C1] Manage Power from Grid -- 2.5.2 [C2] Manage Energy Storage -- 2.5.3 [C3] Manage Energy Sources -- 2.5.4 [C4] Manage Energy to Grid -- 2.5.5 [C5] Manage Energy to Units -- 2.5.6 [C6] Manage MEG -- 2.6 Manage Charging in FCS -- 2.6.1 [D1] Manage Fast

Charging -- 2.6.2 [D2] Manage Ultrafast Charging -- 2.6.3 [D3] Manage Wireless Charging -- 2.6.4 [D4] Manage Regular Charging -- 2.6.5 [D5] Manage Charge Batteries -- 2.6.6 [D6] Manage V2G -- 2.7 Analysis of Best Practice Charging Stations -- 2.7.1 European Distribution System Operators (DSO) -- 2.7.2 Next-Generation Vehicle Promotion Center: Japan -- 2.7.3 US Transport Electrification -- 2.7.4 Smart City Sweden -- 2.7.5 Electrification of Public Bus in Singapore. 2.8 Charging Technology Specifications -- 2.9 Analysis of Mobility Requirements -- 2.10 Automotive Cybersecurity -- 2.11 Summary -- References -- Chapter 3: Fast-Charging Station Design -- 3.1 Introduction -- 3.2 Conceptual Design of Fast-Charging Models -- 3.2.1 Functional Modeling of Fast-Charging Station -- 3.2.2 Fast Charging from the Grid -- 3.2.3 Fast Charging from Grid with Flywheel and Battery -- 3.2.4 Fast Charging with Micro Energy Grid -- 3.2.5 Fast Charging from Grid with Supercapacitor and Battery -- 3.2.6 Powering Charging Station -- 3.2.7 FCS Cyber Physical System Modeling -- 3.2.8 Physical System Modeling for Maritime and Charging Station -- 3.3 Detailed Design of Fast-Charging Station -- 3.3.1 Fast-Charging Station Design -- 3.3.2 Fast-Charging Station Detailed Design -- 3.3.3 Detailed Design of Multi-Input Converter for Fast-Charging Station -- 3.3.4 The Operation Modes of the Converter -- 3.3.4.1 Mode 1: Battery to DC Link -- 3.3.4.2 Mode 2: Supercapacitor to DC Link -- 3.3.4.3 Mode 3: Battery and Supercapacitor -- 3.3.4.4 Mode 4: Battery and Supercapacitor to DC Link -- 3.3.4.5 Mode 5: DC Link to Battery and Supercapacitor -- 3.4 Control System Design -- 3.4.1 Control Design for Charging Unit -- 3.4.1.1 Model Reference Adaptive Control -- 3.4.1.2 Maximum Power Point Tracking (MPPT) -- 3.4.2 Integrated Control Design for the Charging Station -- 3.4.3 Energy Management System (EMS) -- 3.5 Summary -- References -- Chapter 4: Analysis of Transportation Electrification and Fast Charging -- 4.1 Introduction -- 4.2 Analysis of Electric Buses -- 4.2.1 e-Bus Opportunities -- 4.2.2 e-Bus Challenges -- 4.2.3 Battery Technologies -- 4.2.3.1 Battery Size and Range -- 4.2.3.2 Battery Aging -- 4.2.4 Depot for Bus Charging -- 4.2.5 On-Route Charging -- 4.2.6 Conductive On-Route Charging -- 4.2.7 Inductive On-Route Charging. 4.2.8 Battery Swapping On-Route Charging -- 4.3 Analysis of Electric Trucks -- 4.3.1 Fast-Charging System of HDT -- 4.3.2 Depot Charging Electrical Distribution System -- 4.3.3 Charging Scheduling Algorithm -- 4.3.4 Electric Truck Opportunities and Challenges -- 4.3.5 HDT Fast Charging in the Market -- 4.4 EV Charging Technologies -- 4.4.1 AC Charging Station -- 4.4.1.1 Level 1 Charging -- 4.4.1.2 Level 2 Charging -- 4.4.2 DC Charging Station -- 4.4.3 EV Charging Standards -- 4.4.4 EV Fast-Charging Applications and Their Challenges -- 4.5 Summary -- References -- Chapter 5: Fast-Charging Infrastructure for Transit Buses -- 5.1 Introduction -- 5.2 Electric Bus Charging Models -- 5.3 Performance Measures -- 5.4 Case Study -- 5.5 Summary -- References -- Chapter 6: A Robust Decoupled Microgrid Charging Scheme Using a DC Green Plug-Switched Filter Compensator -- 6.1 Introduction -- 6.2 The Proposed Efficient PV-Powered Schemes -- 6.3 The Controller Design Steps and Structure -- 6.4 Digital Simulation Results -- 6.5 Conclusions -- Appendices -- Appendix A: Designed GPFC System Parameters -- Appendix B: Controller Gain Parameters -- References -- Chapter 7: Fast Charging for Railways -- 7.1 Introduction -- 7.1.1 Chapter Outlines -- 7.2 Railway Electrification Infrastructure -- 7.3 Voltage Standardization for Railway Electrification -- 7.4 Resilient Interconnected Microgrid (RIMG) -- 7.5 Requirements of the Utility -- 7.6 The Criteria of the Control System -- 7.7 Design Concepts of Multiple Interconnected Resilient Microgrids -- 7.8 Design

of IMGs -- 7.9 Detailed Design of IMGs -- 7.10 Energy Storage Technologies for the Railway -- 7.10.1 Flywheel -- 7.10.2 ESS in Railway Systems -- References -- Chapter 8: Hybrid Charging Stations -- 8.1 Introduction -- 8.2 Hybrid Charging Station -- 8.3 Operation of Hybrid Charging Station. 8.4 Data Analysis of Hybrid Charging Station -- 8.4.1 EV Charging Station Data -- 8.4.2 Gas Refueling Station Data -- 8.4.3 FCV Refueling Station Data -- 8.5 Optimization of Hybrid Station Operation -- 8.5.1 Objective Functions -- 8.5.2 Constraints -- 8.5.3 Assumptions -- 8.6 Optimization Algorithm -- 8.7 Summary -- References -- Chapter 9: Fast Charging for Marine Transportation -- 9.1 Introduction -- 9.2 Functional Modeling of Hybrid Energy System for Maritime and Waterfront Applications -- 9.3 Energy System Design for Maritime and Waterfront -- 9.3.1 Energy System Design Scenarios -- 9.3.2 Performance Measures -- 9.3.3 Ship Route -- 9.3.4 System Design -- 9.3.5 Optimization -- 9.3.6 Cargo and Propulsion Modules for Nuclear-Powered Ships -- 9.4 Advances in Research and Innovation -- 9.4.1 Research on Energy Systems for Marine Transportation and Waterfront Infrastructures -- 9.4.2 Research Areas -- 9.4.3 Research and Test Facility -- 9.4.4 Research Impacts -- 9.4.5 Target Industries -- 9.5 Summary -- References -- Chapter 10: Resilient Charging Stations for Harsh Environment and Emergencies -- 10.1 Introduction -- 10.2 Charging Infrastructures -- 10.3 Charging in Harsh Environment -- 10.4 Resiliency Analysis of Charging Infrastructures -- 10.5 Emergency Analysis of Charging Stations -- 10.6 Priority Analysis of Charging Stations -- 10.7 Vehicle Energy Management in Emergencies -- 10.8 Summary -- References -- Chapter 11: Autonomous Transportation -- 11.1 Autonomous Transportation -- 11.2 Charging Requirements for Autonomous Transportation -- 11.3 Case Study -- 11.4 Base Scenario -- 11.5 The Scenario of Fixed Pick-Up and Drop-Off Points -- 11.6 Mapping CAV Routes to Charging Infrastructure -- 11.7 Summary -- References -- Chapter 12: Transportation with Electric Wheel -- 12.1 Introduction -- 12.2 Regenerative Braking System -- 12.3 Electric Wheel. 12.4 EV with Electric Wheel -- 12.5 Summary -- References -- Chapter 13: Fast-Charging Infrastructure Planning -- 13.1 Introduction -- 13.2 Charging Load Analysis -- 13.3 Load Profiles of EVs -- 13.4 Load Profiles of e-Buses -- 13.5 Load Profiles of e-Trucks -- 13.6 Load Profiles of Electric Marine -- 13.7 Load Profiles for Power Substations -- 13.8 Load Profiles for Industrial Facilities -- 13.9 Integrated Load Profiles -- 13.10 Development of Fast-Charging Station for Industrial Facilities and e-Trucks -- 13.10.1 Deployment Impacts -- 13.11 Summary -- References -- Chapter 14: Techno-economic Analysis of Fast-Charging Infrastructure -- 14.1 Introduction -- 14.2 Integrated Deployment Model of Fast-Charging Stations -- 14.3 Lifecycle Cost Analysis of Charging Station -- 14.3.1 Cost Calculation -- 14.4 Techno-economic Analysis -- 14.5 Summary -- References -- Chapter 15: Advances in Charging Infrastructures -- 15.1 Introduction -- 15.2 V2G Charging -- 15.2.1 V2G System Design -- 15.2.2 V2G Deployment -- 15.2.3 Benefits -- 15.3 Control Strategy -- 15.4 V2G Installation -- 15.5 Case Study V2G System Design -- 15.6 Flywheel-Based Fast Charging -- 15.7 Case Study V2G with Commercial Building -- 15.8 Wireless Charging -- 15.9 V2V Charging -- 15.10 Next-Generation Transportation Infrastructure -- 15.11 Summary -- References -- Chapter 16: Nuclear-Renewable Hybrid Energy Systems with Charging Stations for Transportation Electrification -- 16.1 Introduction -- 16.2 System Description -- 16.3 Case Study -- 16.4 Results -- 16.5 Nuclear-Renewable Hybrid Energy Systems with Fast-Charging Station

-- 16.6 Fast-Charging Station Design -- 16.6.1 Charging Mode --
16.6.2 Discharging Mode -- 16.7 Summary -- References -- Chapter
17: Transactive Energy for Charging Infrastructures -- 17.1
Introduction -- 17.2 Transactive Energy for Charging Station.
17.2.1 Condition to Start Searching for Charging Station.

2. Record Nr.	UNINA9911019748803321
Titolo	Principles and practice Cardiac magnetic resonance in congenital heart disease : form, function, and flow // edited by Mark Fogel
Pubbl/distr/stampa	Chichester, West Sussex, UK ; ; Hoboken, NJ, : Blackwell Pub., 2010
ISBN	9786612550584 9781282550582 1282550586 9781444317039 1444317032 9781444317046 1444317040
Descrizione fisica	1 online resource (480 p.)
Altri autori (Persone)	FogelMark A
Disciplina	616.1/20437548 616.1207548
Soggetti	Congenital heart disease - Magnetic resonance imaging Congenital heart disease in children - Magnetic resonance imaging Congenital heart disease - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Principles and Practice of Cardiac Magnetic Resonance in Congenital Heart Disease Form, Function, and Flow; ffirs.pdf; Contents; ftoc.pdf; List of Contributors; fbetw01.pdf; Acknowledgement; fbetw02(web).pdf; Foreword; fbetw03.pdf; Preface; fpref.pdf; PART I: The basics of cardiac MR; CHAPTER 1: Physics of cardiac MR and image formation; CHAPTER 2: Technical aspects of pediatric cardiac MR; CHAPTER 3: Assessment of morphology; CHAPTER 4: Assessment of ventricular

function and blood flow; CHAPTER 5: Contrast cardiac MR - anatomy, physiology, viability and perfusion
PART II: Cardiac MR of congenital and acquired pediatric heart disease
CHAPTER 6: The normal cardiac magnetic resonance examination - ruling out congenital heart disease; CHAPTER 7: Abnormalities of the atria and systemic veins; CHAPTER 8: Abnormalities of the ventricles and pericardium; CHAPTER 9: MRI in conotruncal anomalies (except tetralogy of Fallot); CHAPTER 10: Tetralogy of Fallot: morphology and function; CHAPTER 11: Aortic arch anomalies; CHAPTER 12: MR assessment of pulmonary circulation; CHAPTER 13: Valvular heart disease; CHAPTER 14: Imaging coronary arteries in children
CHAPTER 15: Other complex congenital heart disease - heterotaxy, complex spatial relationships, conjoined twins and ectopia cordis
PART III: Special topics in cardiac MR of pediatric and congenital heart disease; CHAPTER 16: Cardiac magnetic resonance of single ventricles; CHAPTER 17: Baffles and conduits; CHAPTER 18: Cardiac tumors; CHAPTER 19: Considerations in the post-operative patient; CHAPTER 20: Interventional magnetic resonance imaging; CHAPTER 21: Adult congenital heart disease
CHAPTER 22: Cardiovascular computed tomographic angiography: complementary role to magnetic resonance imaging
CHAPTER 23: Radiation in cardiac imaging in congenital heart disease; CHAPTER 24: Pediatric cardiovascular MRI in the outpatient private practice setting; CHAPTER 25: The role of the technologist in performing a cardiac MRI (CMR) exam; Index

Sommario/riassunto

Reviewing specific diseases in terms of the cardiac MR approach and procedures, this essential reference focuses fully on cardiac MR as it relates to congenital heart disease. Equipped with an atlas of images and their interpretation, this book will prove indispensable to any cardiac imaging lab.
