

1. Record Nr.	UNINA9911019754703321
Autore	Janick Jules <1931->
Titolo	Horticultural Reviews . Volume 35
Pubbl/distr/stampa	Hoboken, : Wiley, 2009
ISBN	9786612334863 9781282334861 1282334867 9780470593776 0470593776 9780470593769 0470593768
Descrizione fisica	1 online resource (550 p.)
Collana	Horticultural Reviews ; ; v. 35
Disciplina	635
Soggetti	Horticulture -- Bibliography -- Periodicals Horticulture -- Periodicals Horticulture -- Research -- Periodicals Horticulture Gardens, Landscape Architecture & Parks Art, Architecture & Applied Arts
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	HORTICULTURAL REVIEWS Volume 35; Contents; Contributors; Dedication; 1. Genetic Resources and Domestication of Macadamia; I. Introduction; II. Wild Genetic Resources; III. Germplasm Domestication; IV. Genetics of Key Scion Selection Traits; V. Propagation and Rootstock Traits; VI. Cultivar Utilization; VII. Summary; VIII. Acknowledgments; IX. Literature Cited; 2. Pomegranate: Botany, Horticulture, Breeding; I. Introduction; II. Taxonomy and Morphology; III. Origin and Genetic Resources; IV. Horticulture; V. Breeding; VI. Health Benefits; VII. Concluding Remarks; VIII. Acknowledgments IX. Literature Cited3. Daylily: Botany, Propagation, Breeding; I. Introduction; II. Botany; III. Anatomy and Physiology; IV. Horticulture; V. Genetics; VI. Conclusion; VII. Literature Cited; 4. Horseradish: Botany,

Horticulture, Breeding; I. Introduction; II. History; III. Botany; IV. Horticulture; V. Breeding; VI. Literature Cited; 5. 1-Methylcyclopropene: Mode of Action and Relevance in Postharvest Horticulture Research; I. Introduction; II. Ethylene Response Pathway; III. Physiological Processes Affected; IV. Side Effects; V. Summary and Future Research Needs; VI. Acknowledgments
VII. Literature Cited
6. Postharvest Biology and Technology of Cucurbits; I. Introduction; II. Crops; III. Conclusions; IV. Literature Cited; 7. Physiological Disorders of Grape: Bunch Stem Necrosis and Early Bunch Stem Necrosis; I. Introduction; II. Physiology of Berry Growth and Development; III. Bunch Stem Necrosis; IV. Early Bunch Stem Necrosis; V. Summary and Conclusions; VI. Literature Cited; 8. Plug Transplant Technology; I. Introduction; II. Importance of the Plug Industry; III. Plug Production Technology; IV. Organic Plug Production; V. Postharvest Handling of Plugs
VI. Associated Production Techniques
VII. Mechanization; VIII. Conclusions and Prospects; IX. Literature Cited; 9. A History of Grafting; I. Introduction; II. Natural Grafting; III. Historical Evidence; IV. History of Clonal Rootstocks; V. Graft Hybrids; VI. Conclusion; VII. Literature Cited; Subject Index; Cumulative Subject Index; Contributor Index

Sommario/riassunto

Horticultural Reviews presents state-of-the-art reviews on topics in horticultural science and technology covering both basic and applied research. Topics covered include the horticulture of fruits, vegetables, nut crops, and ornamentals. These review articles, written by world authorities, bridge the gap between the specialized researcher and the broader community of horticultural scientists and teachers. All contributions are anonymously reviewed and edited by Professor Jules Janick of Purdue University, USA, and published in the form of one or two volumes per year. Recently publish
