

1. Record Nr.	UNINA9911019758103321
Titolo	Handbook of reoperative general surgery // edited by Mark P. Callery ; foreword by Josef E. Fischer
Pubbl/distr/stampa	Malden, Mass., : Blackwell Pub., c2006
ISBN	9786611321765 9781281321763 1281321761 9780470760260 0470760265 9780470759998 0470759992
Descrizione fisica	1 online resource (263 p.)
Altri autori (Persone)	CalleryMark P
Disciplina	617/.91
Soggetti	Reoperation Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Handbook of Reoperative General Surgery; Contents; Contributors; Foreword; Preface; Acknowledgements; 1. REOPERATIVE HEPATOBILIARY SURGERY; Precis; Reoperative Hepatic Surgery; Recurrent Metastatic Colorectal Cancer; Recurrent Hepatocellular Carcinoma; Alternatives to Repeat Resection; Intraoperative Considerations in Repeat Hepatic Surgery; Reoperative Biliary Surgery; Diagnosis; Intraoperative Considerations in Repeat Biliary Surgery; Interventional Radiologic and Endoscopic Techniques; Choledocholithiasis Following Biliary Surgery; Biliary Reoperations Following Liver Transplantation 2. REOPERATIVE SURGERY IN TRAUMA; Precis; Introduction; Pathophysiology of Severe Injury; Hypothermia; Acidosis; Coagulopathy; Indications for Damage Control Celiotomy; Technique of Damage Control Laparotomy; Timing of Reoperation; Extension of Reoperative Strategies in Polytrauma; Vascular Trauma; Orthopedic Surgery; Thoracic Surgery; Summary; 3. REOPERATIVE GASTRIC SURGERY; Precis;

Introduction; Recurrent Ulcer Disease and Its Complications; Early Complications; Late Complications; Recurrent Peptic Ulcer Disease; Postvagotomy and Postgastrectomy Gastroparesis; Alkaline Reflux Gastritis
Dumping SyndromePostvagotomy Diarrhea; Afferent and Efferent Loop Syndromes; Postgastrectomy Cancer; Diagnostic Studies; Technical Considerations in Reoperative Gastric Surgery for Peptic Ulcer Disease; Revisional Antireflux Procedures; Anatomic Classification of Failed Antireflux Operations; Diagnostic Studies; Candidates for Revisional Operations; Technical Considerations in Reoperative Antireflux Operations; Complications; Summary and Future Directions; 4. REOPERATIVE SURGERY FOR INFLAMMATORY BOWEL DISEASE; Precis; Introduction; Crohn's Disease; Prior Operation; General Principles
Multiple Prior OperationsDefunct Procedures; Recurrent Small Bowel Disease; Small Bowel Resection; Strictureplasty; Recurrent Colonic Disease; Complications of Prior Operation-Nonhealing Perineal Wound; Ulcerative Colitis; Prior Elective Operation (Proctocolectomy and IPAA); Ileostomy Closure; Prior Emergent Operation (Subtotal Colectomy and Rectal Stump); Completion Proctectomy and IPAA; Early Complications of IPAA; Pouch Bleeding; Pouch Ischemia; Pouch Sepsis; Late Complications of IPAA; Small Bowel Obstruction; Delayed Pouch Sepsis; Poor Pouch Function; Small Volume Reservoir; Pouchitis
Retained Rectum/CuffitisCancer; Cesarean Section After IPAA; Liver Transplantation and IPAA; 5. REOPERATIVE BARIATRIC SURGERY; Precis; Introduction; Reoperation for Complications; Revisions for Complications of Vertical Banded Gastroplasty; Revisions for Complications of Roux-en-Y Gastric Bypass; Revisions for Complications of Laparoscopic Adjustable Gastric Band; Revisions for Complications of Malabsorptive Procedures; Reoperation for Failure of Weight Loss; Revisions for Insufficient Weight Loss Following Vertical Banded Gastroplasty
Revisions for Insufficient Weight Loss Following Roux-en-Y Gastric Bypass

Sommario/riassunto

The Handbook of Reoperative General Surgery offers a technical overview of one of surgery's greatest challenges-reoperation. Emphasizing the complications of each disease as well as reoperative procedures, this indispensable text is extensively referenced with pertinent current and classical literature.Organized primarily by body system, the Handbook of Reoperative General Surgery covers the spectrum of conditions faced by general surgeons today, including:^{*} Diagnoses and operative strategy critical for breast cancer^{*} Coverage of reoperative of the liver, biliary tract,
