

1. Record Nr.	UNINA9911019761203321
Titolo	A textbook of modern toxicology
Pubbl/distr/stampa	[Place of publication not identified], : Wiley Interscience, 2004
ISBN	1-280-36801-2 9786610368013 0-470-30768-4 0-471-64677-6
Edizione	[3rd Edition]
Descrizione fisica	1 online resource (581 pages)
Disciplina	615.9
Soggetti	Toxicology Pharmacology Biological Science Disciplines Health Occupations Natural Science Disciplines Disciplines and Occupations Toxicology & Public Health Public Health Health & Biological Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Introduction to biochemical and molecular methods in toxicology / Ernest Hodgson, Gerald A. LeBlanc, Sharon A. Meyer, Robert C. Smart -- Toxicant analysis and quality assurance principles / Ross B. Leidy -- Exposure classes: toxicants in air, water, soil, domestic and occupational settings / W. Gregory Cope -- Classes of toxicants: use classes / W. Gregory Cope, Ross B. Leidy, Ernest Hodgson -- Absorption and distribution of toxicants / Ronald E. Baynes, Ernest Hodgson -- Metabolism of toxicants / Randy L. Rose, Ernest Hodgson -- Reactive metabolites / Randy L. Rose, Patricia E. Levi -- Chemical and physiological influences on xenobiotic metabolism -- Elimination of toxicants / Gerald A. LeBlanc -- Acute toxicity / Gerald A. LeBlanc -- Chemical carcinogenesis / Robert C. Smart -- Teratogenesis / Stacy

Branch -- Hepatotoxicity / Ernest Hodgson, Patricia E. Levi --
Nephrotoxicity / Ernest Hodgson, Patricia e. Levi -- Toxicology of the
nervous system / Bonita L. Blake -- Endocrine system / Gerald A.
LeBlanc -- Respiratory toxicity / Ernest Hodgson, Patricia E. Levi, James
C. Bonner -- Immunotoxicity / MaryJane Selgrade -- Reproductive
system / Stacy Branch -- Toxicity testing / Helen Cunny, Ernest
Hodgson -- Forensic and clinical toxicology / Stacy Branch --
Prevention of toxicity / Ernest Hodgson -- Human health risk
assessment / Ronald E. Baynes -- Analytical methods in toxicology /
Ross B. Leidy -- Basics of environmental toxicology / Gerald A. LeBlanc
-- Transport and fate of toxicants in the environment / Damian Shea
-- Ecological risk assessment / Damian Shea -- Future considerations
for environmental and human health / Ernest Hodgson.

Sommario/riassunto

Toxicology is the science of poisons, embracing the physical and
chemical study of all the known poisonous substances, as well as the
methods of testing for them, their action on the living body, and the
postmortem results they occasion. The Third Edition of this benchmark
text once again proves the most authoritative resource on the subject
for both students and practicing professionals.
