|-------------------------|--|
| 1. Record Nr. | UNINA9911019831403321 |
| Titolo | 65th Conference on Glass Problems : a collection of papers presented at the 65th Conference on Glass Problems, the Ohio State University, Columbus, Ohio (October 19-20, 2004) // editor, Charles H. Drummond, III |
| Pubbl/distr/stampa | Westerville, OH, : American Ceramic Society, c2005 |
| ISBN | 9786612314551 9781282314559 1282314556 9780470291214 0470291214 9780470291603 0470291605 |
| Descrizione fisica | 1 online resource (202 p.) |
| Collana | Ceramic engineering & science proceedings, , 0196-6219 ; ; v. 26, no. 1 |
| Altri autori (Persone) | DrummondCharles H (Charles Henry) |
| Disciplina | 666.05 |
| Soggetti | Glass manufacture Glass |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Sponsored by the Departments of Materials Science and Engineering at The Ohio State University and the University of Illinois at Urbana-Champaign. |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | 65th Conference on Glass Problems; Contents; Foreword; Preface; Acknowledgements; Advanced Feeder Control Using Fast Simulation Models; Application of IR-Sensors in Container Glass Forming Process; Transmitted and Reflected Distortion of Float and Laminated Glass; Inspection: Going Beyond Just Finding Defects; Quality and Glass Production Improvements Through Statistical Process Control at Fevisa in Mexico; Application of Microwaves in Glass Conditioning; The Development of the Emhart Glass 340 Forehearth; New Developments in Stirrer Technology; Spinel Refractories and Glass Melting Getting Fired Up with Synthetic SilicatesTall Crown Glass Furnace Technology for Oxy-Fuel Firing; A Designer's Insight Into All-Electric |

Melting; Lessons Learned in Developing the Glass Furnace Model; The SORG@ VSM@ All-Electric Melter for 180TIDay Container Glass Design, Installation and First Experience; The US. Glass Industry-Moving in New Directions; Joining Organic Materials with Inorganic Glass-Future Composite?; Challenges to the US Glass Industry Will the US Manufacture Glass in 2020?

Sommario/riassunto

This conference proceeding includes 18 papers.
