Sommario/riassunto	<p>This Fourth Edition of the Quick Selection Guide to Chemical Protective Clothing has been revised significantly, including 100 new chemicals and approximately 1000 more selection recommendations compared to previous editions. The color-coded tables of recommendations containing 16 representative protective clothing materials have been updated by replacing two of the barriers. The best-selling pocket guide now includes 700 chemicals, additional synonyms, CAS numbers, risk codes and special notations to alert the user. A section on chemical warfare agents and selection recommendations of prot</p>
