

1. Record Nr.	UNINA9911019884503321
Autore	Joshi Deepak
Titolo	Hepatology at a glance // Deepak Joshi, Margaret G. Keane, Jeremy Nayagam
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2025 ©2025
ISBN	1-394-21759-5 1-394-21757-9 1-394-21758-7
Edizione	[Second ed.]
Descrizione fisica	1 online resource (284 pages)
Collana	At a Glance Series
Altri autori (Persone)	KeaneMargaret G NayagamJeremy
Disciplina	616.362
Soggetti	Liver Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- Preface -- Acknowledgements -- List of abbreviation -- How to use your revision guide -- About the companion website -- Part 1 Basics -- Chapter 1 Liver and biliary anatomy and structure -- Development -- Macro liver and biliary anatomy -- Blood and lymphatic supply -- Micro liver structure -- Anatomical abnormalities -- Chapter 2 Liver metabolism and function -- Metabolism -- Carbohydrates -- Lipids -- Protein -- Hormones and vitamins -- Drug metabolism -- Synthesis -- Protein -- Bile -- Bile acids -- Ammonia -- Lipids -- Immunological function -- Chapter 3 Coagulation in liver disease -- Normal coagulation -- Fibrinolysis -- Inhibitory factors -- Coagulopathy in liver disease -- Increased bleeding risk -- Increased thrombotic risk -- Abnormal coagulation tests in CLD -- Thromboelastography -- Approach to bleeding risk -- Chapter 4 Liver fibrosis -- Liver fibrosis -- Mechanisms of hepatic fibrosis -- Part 2 Evaluation of liver disease -- Chapter 5 Clinical history -- Common presenting complaints -- History of presenting complaint -- Risk factors for primary liver disease (+ social history) -- Past medical history -- Drug history -- Family history -- Systematic review -- Chapter 6 Liver examination -- Hands signs --

Skin and musculoskeletal signs -- Facial signs -- Chest signs --
Abdominal signs -- Inspection -- Percussion and palpation --
Auscultation -- Signs of decompensation -- Chapter 7 Liver blood tests
-- Definition -- Patterns of abnormal LBTs -- Markers of synthetic
function -- Bilirubin synthesis and metabolism -- Markers of liver
damage -- Chapter 8 Diagnostic radiology in liver disease --
Ultrasound -- Computed tomography scan -- Magnetic resonance
imaging -- Nuclear medicine -- Positron emission tomography --
Cholescintigraphy -- Chapter 9 Interventional radiology in liver disease.
Transjugular liver biopsy -- Portal hypertension -- Hepatic venous
pressure gradient (HVPG) -- Treatment of portal hypertension -- Biliary
drainage -- Percutaneous transhepatic biliary drainage (PTBD) --
Percutaneous cholecystostomy -- Arterial complications -- Arterial
bleeding/pseudoaneurysms -- Hepatic artery stenosis -- Venous
complications -- IVC stenosis -- IVC thrombosis -- Liver cancer --
Transarterial embolisation and transarterial chemoembolisation
(TAE/TACE) -- Percutaneous ablation of liver tumours -- Chapter 10
Liver biopsy -- Indications -- Types of liver biopsy -- Complications --
Contraindications -- Adequacy of specimen -- Staining --
Interpretation of a liver biopsy -- Chapter 11 Non-invasive markers of
fibrosis -- Imaging -- Serum markers -- Part 3 Clinical scenarios --
Chapter 12 Asymptomatic abnormal LBTs -- Non-invasive liver screen
-- Blood tests -- Imaging -- Assessment of severity -- Prognosis --
Chapter 13 Jaundice -- Classification -- Unconjugated (indirect)
hyperbilirubinaemia -- Conjugated (direct) hyperbilirubinaemia -- Rare
causes of intrahepatic cholestasis -- Chapter 14 Portal hypertension --
Pathophysiology -- Location and causes of resistance -- Pre-hepatic
causes -- Intrahepatic causes -- Post-hepatic causes -- Consequences
of sustained portal hypertension -- Portosystemic collaterals -- Clinical
signs and symptoms of PHT -- Diagnosis -- Management
and prognosis -- Chapter 15 Variceal bleeding -- Diagnosis
and surveillance -- Endoscopic grading of OV's -- Management -- Pre-
primary prophylaxis -- Primary prophylaxis -- Management of acute
variceal haemorrhage and secondary prophylaxis -- Chapter 16 Ascites
-- Ascites -- Investigations -- Definitions of ascites in liver disease --
Pathogenesis -- Grading and management of uncomplicated ascites --
Chapter 17 Management of complications of ascites.
Management of refractory ascites -- Complications of ascites --
Spontaneous bacterial peritonitis -- Hepatorenal syndrome --
Hyponatraemia -- Chapter 18 Renal dysfunction in cirrhosis -- Renal
dysfunction in cirrhosis -- Assessment of renal function -- Acute
kidney injury -- Chronic kidney disease -- Management of renal
dysfunction in cirrhosis -- Chapter 19 Cardiopulmonary complications
-- Haemodynamics of cirrhosis and cirrhotic cardiomyopathy -- Porto-
pulmonary hypertension -- Symptoms -- Diagnosis -- Treatment
and prognosis -- Hepatopulmonary syndrome -- Symptoms --
Diagnosis -- Treatment and prognosis -- Hepatic hydrothorax --
Chapter 20 Hepatic encephalopathy -- Hepatic encephalopathy --
Epidemiology -- Type of HE (World Congress of Gastroenterology
criteria) -- Pathogenesis -- Common precipitants -- Grading of hepatic
encephalopathy -- Diagnosis -- Prognosis -- Management -- Chapter
21 Acute liver failure -- Acute liver failure -- Definitions -- Clinical
assessment and features -- Investigations -- Management -- Role
of liver transplantation -- Chapter 22 Liver disease in pregnancy --
Pregnancy-related liver diseases -- Hyperemesis gravidarum --
Intrahepatic cholestasis of pregnancy -- Hypertension-related liver
diseases in pregnancy -- Pre-existing liver diseases and pregnancy --
Cirrhosis and portal hypertension -- Liver diseases coincidental with

pregnancy -- Acute viral hepatitis -- Other -- Chapter 23 Liver disease in adolescents -- Transitional care -- Aetiologies -- Paediatric diseases -- Diseases that occur in children and young adults -- Liver transplantation -- Chapter 24 Indications for liver transplantation -- Liver transplantation -- Patient selection -- Indications -- Contraindications: absolute and relative -- Patient assessment -- Surgery -- Chapter 25 Drug-induced liver injury -- Definitions -- Epidemiology -- Mechanisms. Risk factors -- Diagnosis -- Assessment of suspected DILI -- DRESS syndrome -- Chapter 26 Focal liver lesions -- Benign lesions -- Abscess -- Cysts -- Hepatic haemangioma -- Focal nodular hyperplasia -- Hepatic adenoma -- Focal fatty infiltration or sparing -- Malignant lesions -- Chapter 27 Palliative care and symptom control in liver disease -- Timing of Palliative care -- Advance care planning -- End-of-life care -- Symptom control -- Pain -- Dyspnoea -- Pruritus -- Nausea and vomiting -- Muscle cramps -- Depression -- Ascites -- Part 4 Diseases -- Chapter 28 Alcohol-related liver disease -- Alcohol-related liver diseases -- Steatosis -- Steatohepatitis -- Cirrhosis -- Hepatocellular carcinoma -- Alcoholic hepatitis -- Management of alcoholic hepatitis -- Chapter 29 Management of alcohol misuse -- Screening for alcohol misuse -- Assessment -- Management -- Hazardous and harmful drinking (AUDIT > 15) -- Dependent drinking -- Alcohol withdrawal -- Chapter 30 Metabolic dysfunction-associated steatotic liver disease -- Definitions -- Epidemiology -- Pathophysiology -- Investigations -- Blood tests -- Ultrasound -- Non-invasive fibrosis -- Biopsy -- Diagnosis -- Management -- Lifestyle management and weight loss -- Medical management -- Surgical and endoscopic management -- Prognosis -- Chapter 31 Hepatitis A and hepatitis E viruses -- Hepatitis A virus -- Risk factors for HAV infection -- Diagnosis -- Vaccination -- Hepatitis E virus -- Transmission -- Clinical presentation -- Diagnosis -- Special patient populations -- Other viruses -- Chapter 32 Hepatitis B virus and hepatitis delta -- Hepatitis B virus -- Epidemiology -- Structure -- Clinical features and natural history -- Investigations -- Management -- Hepatitis delta virus -- Investigations -- Management -- Chapter 33 Hepatitis C virus -- Hepatitis C virus -- Epidemiology. Structure and replication -- Pathogenesis -- Clinical features and natural history -- Investigations -- Treatment -- Chapter 34 Autoimmune hepatitis -- Autoimmune hepatitis -- Epidemiology -- Pathogenesis -- Clinical presentation -- Diagnostic criteria -- Categories -- Management -- Prognosis -- Chapter 35 Primary biliary cholangitis -- Primary biliary cholangitis -- Epidemiology -- Pathogenesis -- Clinical presentation -- Investigations -- Management -- Follow-up -- Prognosis -- Chapter 36 Sclerosing cholangiopathies -- Primary sclerosing cholangitis -- Epidemiology -- Pathogenesis -- Clinical presentation -- Investigations -- Management -- Complications -- Prognosis -- Secondary sclerosing cholangitis -- Chapter 37 Overlap syndromes -- AIH-PBC -- AIH with PBC -- PBC with subsequent AIH -- AIH-PSC -- PBC-PSC -- Chapter 38 IgG4-related disease -- Diagnosis -- Management -- Chapter 39 Congenital liver disease -- Biliary atresia -- Alagille syndrome -- Progressive familial intrahepatic cholestasis -- Chapter 40 Haemochromatosis and iron overload -- Causes of iron overload -- Haemochromatosis -- Genetics -- Pathogenesis -- Clinical presentation -- Investigations -- Treatment -- Prognosis -- Chapter 41 Wilson's disease -- Wilson's disease -- Clinical presentation -- Diagnosis -- Prognosis -- Treatment -- Chapter 42 Metabolic disorders -- Metabolic disorders -- Porphyrias -- Glycogen storage disease -- Lysosomal storage disorders -- Chapter

43 Multisystemic diseases -- Cystic fibrosis -- Diagnosis -- Management -- Sarcoidosis -- Amyloidosis -- 1-Antitrypsin deficiency -- Hereditary haemorrhagic telangiectasia -- Chapter 44 Vascular disorders -- Vascular disorders -- Budd-Chiari syndrome -- Portal vein thrombosis -- Sinusoidal obstruction syndrome -- Ischaemic hepatitis -- Hepatic infarction -- Sickle cell hepatopathy. Chapter 45 Pancreaticobiliary disorders.

Sommario/riassunto

"Hepatology at a Glance is an accessible, illustrated introduction to this increasingly important specialty. This brand new title helps the reader to develop a solid understanding of liver disease, and to recognise, diagnose and treat all types of routinely encountered liver and biliary disorders. It covers key areas such as the development, structure and function of the liver, transplantation, surgery and nutrition. Common cases of liver disorders and scenario, and the management of rarer diseases and disorders in special patient groups such as the pregnant are included. This second edition includes updates to 75% of the chapters, and at least 6 new chapters on adolescent care, Radiology in liver disease -- therapeutic, treatments of fatty liver disease, Paediatric liver diseases for the adult hepatologist, IgG4 related disease and Endohepatology"--
