

1. Record Nr.	UNINA9911019957203321
Titolo	Peripheral circulation in man : a Ciba Foundation symposium // editors for the Ciba Foundation, G.E.W. Wolstenholme and Jessie S. Freeman ; assisted by Joan Etherington
Pubbl/distr/stampa	London, : J. & A. Churchill, 1954
ISBN	9780470715185 0470715189 9780470714874 0470714875
Descrizione fisica	1 online resource (249 p.)
Collana	Ciba Foundation symposium
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) FreemanJessie S <1880-1953.> (Jessie Strahorn) EtheringtonJoan
Disciplina	612.1
Soggetti	Peripheral circulation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	PERIPHERAL CIRCULATION IN MAN; PREFACE; CONTENTS; Chairman's Opening Remarks; A critical survey of methods available for the measurement of human peripheral blood flow; Discussion; The venous occlusive technique for measurement of finger blood flow; Discussion; The electrical strain gauge method for measurement of peripheral circulation in man; Discussion; The transparent chamber technique for observation of the peripheral circulation, as studied in mice; Discussion; Differential secretion of noradrenaline and adrenaline from the suprarenal gland; Discussion The effect of adrenaline and noradrenaline on the blood flow through human skeletal muscleDiscussion; Changes in peripheral circulation with exposure to cold; The response to cold in the range 0-10°C.; Discussion; Factors concerned in the regulation of skin blood flow; Blood flow response to temperature and other factors; Discussion; Observations on the neurohistology of cutaneous blood vessels; Discussion; Reflex control of the cutaneous circulation; Discussion; The problem of vasomotor denervation; Vascular reactivity following

sympathectomy; Discussion

Some anatomical observations on peripheral ischaemia in man; Discussion; The mechanism of the Raynaud's phenomenon in patients with high serum titres of cold agglutinins; Discussion; Visceral activity and peripheral circulation in the spinal man; Discussion; Some aspects of functional disorders of the circulation; Discussion; Chairman's Closing Remarks; AUTHOR INDEX

Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
