Sommario/riassunto	"English translation and first privately published edition of a valuable book on Japanese immigration and internment during WWII. Initially published in Japanese to a limited readership. This informative study, candidly and insightfully written, details the formative period of

Japanese migration to Peru and, just as importantly, the trying experience of the author, his family, and 1,800 other Japanese-Peruvians who were interned in the US during WWII. Excellent memoir portrays Asian immigrant experience of cultural adaption in Latin America. Insightful forward by the late C. Harvey Gardiner, who wrote extensively on the Japanese in Latin America and Peru, in particular"-- Handbook of Latin American Studies, v. 58.

Sommario/riassunto

A detailed, up-to-date review of transition metal-containing polymers Promising advances in the electrical, optical, magnetic, biological, and catalytic properties that metal-containing polymers possess have led to notable expansion in the field of transition metal-containing polymers. *Frontiers in Transition Metal-Containing Polymers* provides a comprehensive, up-to-date review of the synthesis, properties, and applications of transition metal-containing polymers, including an overview of the historical development of these types of polymers. Written by the leading researcher
