Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Language, Names, and Information; Contents; Prologue; Lecture One: The Debate Over the Theory of Reference for Proper Names; Lecture Two: Understanding, Representation, Information; Lecture Three: Ir-content and the Set of Worlds Where a Sentence is True; Lecture Four: Two Spaceism; Lecture Five: The Informational Value of Names; References; Index
Sommario/riassunto	Language, Names, and Information is an important contribution to philosophy of language by one of its foremost scholars, challenging the pervasive view that the description theory of proper names is dead in the water, and defending a version of the description theory from a perspective on language that sees words as a wonderful source of information about the nature of the world we live in. Challenges current

pervasive view that the description theory of reference for proper names has been refutedDiscusses several topics at the center of current debates, including representat
