| 1. Record Nr. | UNINA9911020070703321 |
| Titolo | Pyridine and its derivatives Supplement . Part four // edited by R. A. Abramovitch |
| Pubbl/distr/stampa | New York, : Interscience, 1975 |
| ISBN | 9786612306822 9781282306820 1282306820 9780470186695 0470186690 9780470188194 0470188197 |
| Edizione | [99th ed.] |
| Descrizione fisica | 1 online resource (739 p.) |
| Collana | Chemistry of heterocyclic compounds ; ; v. 14 |
| Altri autori (Persone) | AbramovitchR. A. <1930-> |
| Disciplina | 547.59 547.593 |
| Soggetti | Pyridine Pyridine - Derivatives |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | PYRIDINE AND ITS DERIVATIVES; Contents; XIII. Pyridine Alcohols; XIV. Pyridine Aldehydes and Ketones; XV. Sulfur and Selenium Compounds of Pyridine; XVI. Pyridines and Reduced Pyridines of Pharmacological Interest; Subject Index; Cumulative Author Index |
| Sommario/riassunto | The Chemistry of Heterocyclic Compounds, since its inception, has been recognized as a cornerstone of heterocyclic chemistry. Each volume attempts to discuss all aspects - properties, synthesis, reactions, physiological and industrial significance - of a specific ring system. To keep the series up-to-date, supplementary volumes covering the recent literature on each individual ring system have been published. Many ring systems (such as pyridines and oxazoles) are treated in distinct books, each consisting of separate volumes or parts dealing with different individual topics. With all authors are recognized authorities, the Chemistry of Heterocyclic Chemistry is considered |

worldwide as the indispensable resource for organic, bioorganic, and medicinal chemists.
