Sommario/riassunto	This unique book provides a modern discussion of David Hume's work in ethical theory and moral judgment Widely regarded as one of the most important philosophers in Western thinking, David Hume contributed significant works that profoundly influenced the study of ethics and morality. Now, in Walls and Vaults, internationally renowned author Jordan Howard Sobel blends Hume's moral theory with his own groundbreaking observations and employs mathematical thought to explore timeless questions about the grounds of morality, the organization of moral principles, and the rationale for
