

1. Record Nr.	UNINA9911020172503321
Titolo	Strategy of the viral genome : (proceedings of the Symposium on Strategy of the Viral Genome, January 1971) // edited by Ruth Porter and Maeve O'Connor
Pubbl/distr/stampa	Edinburgh, : Churchill Livingstone, 1971
ISBN	9786613679659 9781280768880 1280768886 9780470719824 0470719826 9780470717479 0470717475
Descrizione fisica	1 online resource (324 p.)
Collana	Novartis Foundation Symposia
Altri autori (Persone)	WolstenholmeG. E. W (Gordon Ethelbert Ward) O'ConnorMaeve
Disciplina	576.64 576/.64
Soggetti	Viral genomes Genetics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"A Ciba Foundation symposium".
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	MOLECULAR PROPERTIES OF DRUG RECEPTORS; Contents; Chairman's opening remarks; Receptors as defined by their pharmacological properties; Discussion; The cholinergic receptor in skeletal muscle; Discussion; Adenyl cyclase as a component of the adrenergic receptor; Discussion; On receptors in the postsynaptic membrane of the motor end plate; Discussion; General Discussion; Crystallographic studies of the active site of lysozyme; Discussion; Nuclear magnetic resonance studies of protein binding sites: the complex of staphylococcal nuclease with 3',5'-thymidine diphosphate; Discussion Fluorescent probes of biological macromoleculesDiscussion; General Discussion; The interaction of the subunits of haemoglobin as a mechanism of control; Discussion; Conformational transitions in the

course of membrane excitation; Discussion; General Discussion; Affinity labelling of protein active sites; Discussion; Counting acetylcholine receptors in the electroplax; Discussion; The nature of complex formation; Discussion; Final Discussion; Author index; Subject index

## Sommario/riassunto

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.
