

1. Record Nr.	UNINA9911020197703321
Titolo	Electron transfer in chemistry
Pubbl/distr/stampa	[Place of publication not identified], : Wiley VCH, 2001
ISBN	9783527618248 3527618244
Disciplina	541.3/93
Soggetti	Oxidation-reduction reaction Chemistry - General Chemistry Physical Sciences & Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	1. Principles and theories, methods and techniques -- 2. Organic molecules, organometallic and inorganic molecules -- 3. Biological systems, artificial supramolecular systems -- 4. Catalysis of electron transfer, heterogenous systems, gas-phase systems -- 5. Molecules-level electronics, imaging and information, energy and the environment.
