Sommario/riassunto

The twenty-sixth volume in the most prestigious series of annual
 volumes in the field of industrial and organizational psychology,
 providing authoritative and integrative reviews of the key literature in
 the field * All chapters written by established experts and all topics
 carefully chosen to reflect the major concerns in both the research
 literature and in current practice * Presents developments in such
 established areas as stress and well-being, consumer behavior,
 employee trust, deception and applicant faking, the assessment of job
 performance and work attitudes, and the employment interview *
 Newer topics explored include methodological issues in the
 development and evaluation of multiple regression models, and the
 psychological impact of the physical office environment * Each chapter
 offers a comprehensive and critical survey of the chosen topic, and
 each is supported by a valuable bibliography
