Livello bibliografico	Monografia
Sommario/riassunto	<p>"Evidence-Based CBT is the first book to take an explicitly competencies-based approach to the cognitive-behavioural treatment of anxiety and depression in children and young people. It draws on top-name expertise to define and demonstrate the therapist competencies needed to effectively implement CBT"--"Covers a range of essential competencies including building a positive therapeutic relationship, case formulation, managing negative thoughts, changing maladaptive behaviours and modifying the family environment"--</p>
