Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Title from journal home page (viewed Mar. 5, 2007).

2. Record Nr.	UNINA9911020428503321
Autore	da Silva Lucas F. M
Titolo	2nd International Conference on Durability, Repair and Maintenance of Structures : Selected Contributions of DRMS 2025 // edited by Lucas F. M. da Silva, António Torres Marques
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-96476-4
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (264 pages)
Collana	Proceedings in Engineering Mechanics, Research, Technology and Education, , 2731-023X
Altri autori (Persone)	Torres MarquesAntonio
Disciplina	620.1
Soggetti	Building materials Materials - Fatigue Buildings - Repair and reconstruction Buildings - Maintenance Financial risk management Structural Materials Materials Fatigue Building Repair and Maintenance Risk Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Durability in civil engineering applications -- Fatigue and fracture characterization -- Repair of composite materials and structures -- Structural joints durability -- Durability in aerospace and marine applications -- Diagnostics and maintenance methodologies.
Sommario/riassunto	This book provides selected papers presented at the 2nd International Conference on Durability, Repair and Maintenance of Structures, held in Porto, Portugal, March 13-14, 2025. The volume focuses on the durability, repair and maintenance processes of engineering structures. A wide range of topics like durability in civil engineering applications, fatigue and fracture characterization, repair of composite materials and structures, structural joints durability, diagnostics and maintenance methodologies, and durability in aerospace and marine applications are covered. The book presents novel research works and innovations in

this field, useful for students, researchers, as well as industry professionals in various fields of engineering structures.
