

1. Record Nr.	UNINA9911021142803321
Autore	Huang Lin
Titolo	Proceedings of 17th International Conference on Machine Learning and Computing : ICMLC2025, Volume 1 / / edited by Lin Huang, David Greenhalgh
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	3-031-94892-0
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (1267 pages)
Collana	Lecture Notes in Networks and Systems, , 2367-3389 ; ; 1475
Altri autori (Persone)	GreenhalghDavid
Disciplina	006.3
Soggetti	Computational intelligence Engineering - Data processing Machine learning Computational Intelligence Data Engineering Machine Learning
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Machine Learning Theory and Algorithms -- High-performance Computing Models and Data Processing -- Large-scale Language Models and Natural Language Processing -- Data-oriented Information Oystem Optimization and Intelligent Computing -- Software and Interactive System Design -- Complex System Design and Functional Integrity Verification -- AI-based Intelligent Control Systems and System Security.
Sommario/riassunto	This book comprises original and peer reviewed research papers presented at 2025 17th International Conference on Machine Learning and Computing that was held in Guangzhou, China, from February 14 to 17, 2025. The focus of the conference is to establish an effective platform for institutions and industries to share ideas and to present the works of scientists, engineers, educators and students from all over the world. Topics discussed in this volume include Machine Learning Theory and Algorithms, High-performance Computing Models and Data Processing, Large-scale Language Models and Natural Language Processing, Data-oriented Information System Optimization and

Intelligent Computing, AI-based Intelligent Control Systems and System Security, etc. The book will become a valuable resource for academics, industry professionals, and engineers working in the related fields of machine learning and computing.
